Buddhism From A Catholic Perspective:

Buddhism Paul Williams,2006-01-01 An introduction to the main forms of Buddhism from a Catholic viewpoint

Catholicism and Buddhism Anthony E. Clark,2018-04-03 The recent tide of books comparing Christianity and Buddhism has centered mostly on similarities The Dalai Lama for example provided his opinions on Christianity in a popular book The Good Heart A Buddhist Perspective on the Teachings of Jesus 1996 Other writers have equally sought to describe these two traditions as two paths to the same place Finding these approaches overly simplified Anthony Clark confronts the distinctions between Buddhism and Catholic Christianity acknowledging areas of confluence but also discerning areas of abiding difference Clark provides here a Catholic view of Buddhism that avoids obfuscations seeking clarity for the sake of more productive dialogue

The Catholic Church and the World Religions Gavin D'Costa,2011-04-28 There is no single standard textbook that outlines the official Roman Catholic theological position in relation to other religions which then explicates this orientation theologically and phenomenologically in relation to the four main religions of the world and the flowering of new religious movements in the west The present project will cover this serious gap in the literature After outlining the teaching of Vatican II and the magisterium since then chapter one each subsequent chapter will be divided equally between a an exposition of the history and features of the religion or movement being studied and b a serious theological analysis of these features showing how these religions do have elements in common as well as how they differ in fundamental ways from Catholicism

Unexpected Way Paul Williams,2002-07-06 The story of one man s unexpected pilgrimage from Buddhism to Catholicism There are Christians who in mid life decide to abandon their Christian faith and become Buddhists Paul Williams did the opposite After twenty years spent practising and teaching Tibetan Buddhism in Britain scholar and broadcaster Paul Williams astonished his family and friends in 1999 by converting to Roman Catholicism Williams explains why he joined a Church that many Buddhists and others might regard as a repressed and outdated way of life and belief He argues that being a Catholic in the modern world is no less rational than being a Buddhist and may in many respects be more so

Catholicism in Dialogue Wayne Teasdale,2004 Drawing on his extensive knowledge and experience of ecumenical cooperation Roman Catholic lay brother and monk Wayne Teasdale offers a strong and prophetic voice for interfaith dialogue that brings traditions together without watering them down He offers a blueprint for combining the strengths and perspectives of various faiths in order to address the crises of poverty racism environmental pollution and moral indifference Highly informative and compelling this book is accessible to a wide audience from the classroom to study groups and others who want to learn about conversing across traditions

Interreligious Comparisons in Religious Studies and Theology Perry Schmidt-Leukel,Andreas Nehring,2016-07-14 Can religions be compared For decades the discipline of religious studies was based on the assumption that they can Postmodern and postcolonial reflections however raised significant doubts In social and cultural studies the investigation of the particular often took precedence over a comparative

perspective Interreligious Comparisons in Religious Studies and Theology questions whether religious studies can survive if it ceases to be comparative religion Can it do justice to a globalized world if it is limited on the specific and turns a blind eye on the general While comparative approaches have come under strong pressure in religious studies they have started flourishing in Theology Comparative theology practices interfaith dialogue by means of comparative research This volume asks whether theology and religious studies are able to mutually benefit from their critical and constructive reflections Can postcolonial criticism of neutrality and objectivity in religious studies create new links with the decidedly perspectival approach of comparative theology In this collection scholars from theology and religious studies discuss the methodology of interreligious comparison in the light of recent doubts and current objections Together with the contributors Perry Schmidt Leukel and Andreas Nehring argue that after decades of critique interreligious comparison deserves to be reconsidered reconstructed and reintroduced

Interreligious Perspectives on Mind, Genes and the Self Joseph Tham, Chris Durante, Alberto García Gómez, 2018-10-26 Attitudes towards science medicine and the body are all profoundly shaped by people's worldviews When discussing issues of bioethics religion often plays a major role In this volume the role of genetic manipulation and neurotechnology in shaping human identity is examined from multiple religious perspectives This can help us to understand how religion might affect the impact of the initiatives such as the UNESCO Declaration in Bioethics and Human Rights The book features bioethics experts from six major religions Buddhism Confucianism Christianity Islam Hinduism and Judaism It includes a number of distinct religious and cultural views on the anthropological ethical and social challenges of emerging technologies in the light of human rights and in the context of global bioethics The contributors work together to explore issues such as cultural attitudes to gene editing neuroactive drugs the interaction between genes and behaviours the relationship between the soul the mind and DNA and how can clinical applications of these technologies benefit the developing world This is a significant collection demonstrating how religion and modern technologies relate to one another It will therefore be of great interest to academics working in bioethics religion and the body interreligious dialogue and religion and science technology and neuroscience

Catholicism and Interreligious Dialogue James L. Heft S. M., 2011-11-21 How can the world's many religions overcome ideological differences and come together to promote understanding justice and peace In this groundbreaking volume James L Heft and fifteen other leading scholars of the world's major religions show how to answer this crucial question

Spiritual Perspectives on Globalization (2nd Edition) Ira Rifkin, 2013-03-21 What is globalization anyway What are spiritually minded people on all sides of the issue doing and saying about it The economic and cultural dynamic of globalization is transforming the world at an unprecedented pace But what exactly is it What are its origins What is its impact on our spiritual lives This lucid introduction surveys the religious landscape explaining in clear and nonjudgmental language the beliefs that motivate spiritual leaders activists theologians academics and others involved on all sides of the issue Included are the points of view of Bah's Buddhists Earth based and

tribal religions Hindus Jews Muslims Protestants Roman Catholics Unlike other books on this controversial issue this easy to read introduction won't tell you what to think it gives you the information you need to reach your own conclusions As important as economics may be it is not as the great religions stress the full measure of humanity There is also connection to self to others to the ingrained values that have sustained cultures for generations and millennia and to the belief in transcendence that gives it all meaning In the end what unnerves people most about globalization including many in the West who may fairly be said to be on the winning side economically that is of the process so far is the threat it poses to that which is most precious to a life of satisfaction our sense of meaning from the Conclusion **Discovery** United States Air Force Academy, 1983
