Buddhist Christianity A Passionate Openness:

Buddhist Christianity Ross Thompson, 2010-08-16 It is possible to be a Christian Buddhist in the context of a universal belief that sits fairly lightly on both traditions Ross Thompson takes especially seriously the aspects of each faith that seem incompatible with the other no God and no soul in Buddhism for example and the need for grace and the historical atonement on the cross in Christianity Buddhist Christianity can be no bland blend of the tamer aspects of both faiths but must result from a wrestling of the seeming incompatibles allowing each faith to shake the other to its very foundations The author traces his personal journey through which his need for both faiths became painfully apparent He explores the Buddha and Jesus through their teachings and the varied communities that flow from them investigating their different understandings of suffering and wrong self and liberation meditation and prayer cosmology and God or not He concludes with a bold commitment to both faiths

Buddhist-Christian Dual Belonging Gavin D'Costa, Ross Thompson, 2017-05-15 A growing number of people describe themselves as both Buddhist and Christian but does such a self description really make sense Many people involved in inter faith dialogue argue that this dialogue leads to a mutually transformative process but what if the transformation reaches the point where the Buddhist or Christian becomes a Buddhist Christian Does this represent a fulfilment of or the undermining of dialogue Exploring the growing phenomenon of Buddhist Christian dual belonging a wide variety of authors including advocates sympathisers and opponents from both faiths focus on three key questions Can Christian and Buddhist accounts and practices of salvation or liberation be reconciled Are Christian theism and Buddhist non theism compatible And does dual belonging inevitably distort the essence of these faiths or merely change its cultural expression Clarifying different ways of justifying dual belonging contributors offer criticisms of dual belonging from different religious perspectives Theravada Buddhist Evangelical Reformed and Roman Catholic and from different methodological approaches Four chapters then carry the discussion forward suggesting ways in which dual belonging might make sense from Catholic Theravada Buddhist Pure land Buddhist and Anglican perspectives The conclusion clarifies the main challenges emerging for dual believers and the implications for interreligious dialogue

Buddhist and

Christian? Rose Drew, 2013-07-03 This is a detailed exploration of Buddhist Christian dual belonging engaging from both Buddhist and Christian perspectives the questions that arise and drawing on extensive interviews with well known individuals in the vanguard of this important and growing phenomenon The issue is pressing insofar the last century has witnessed a gradual but profound transformation of the West's religious landscape In today's context of diversity people are often influenced by more than one religion Multireligious identities are consequently on the rise At one end of the spectrum are those who identify themselves as fully belonging to more than one tradition One of the most prevalent combinations is Christianity and Buddhism This book addresses central and fundamental questions How is it possible to be authentically Buddhist and authentically Christian when for example God is central to Christianity yet absent from Buddhism when Christians have faith in Jesus Christ while Buddhists take refuge in the Buddha when Christians hope for heaven and Buddhists hope for nirvana and when Buddhists and Christians engage in different practices Are those who identify themselves as belonging to both traditions profoundly irrational religiously schizophrenic or perhaps just spiritually superficial Or is it possible somehow to reconcile the thought and practice of Buddhism and Christianity in such a way that one can be deeply committed to both And if it is possible will the influence of Buddhist Christians on each of these traditions be something to be regretted or celebrated *Queering Christianity* Robert E. Shore-Goss, Thomas Bohache, Patrick S. Cheng, Mona West, 2013-06-25 A fascinating read for anyone seeking to understand the conflict between Christianity and LGBTQI individuals this book is as its editors proclaim a fearlessly wide vision of queer Christians finding a place within Christianity and claiming their authentic experience and voice Through essays by noted lesbian gay bisexual transgender queer or questioning and intersex LGBTQI religion scholars this important compilation summarizes the history and current status of LGBTQI theology exploring its relationship to the policies practices and theology of traditional Christianity Contributors contrast the radically inclusive thinking of LGBTQI theology with the exclusivity practiced by many Christian churches explaining the reasoning of each and clarifying contentious issues At the same time the book highlights ways in which queer theology and practice benefit Christian congregations Writing from the perspective of grassroots Christian LGBTQI movements many of the contributors draw upon their own experiences They provide graphic examples of the effects exclusion has on individuals congregations and denominations and also share examples of inclusion and its effects Equally important the work creates the basis for dialogue between traditional churches and followers of LGBTQI theology offering practical suggestions for Christian congregations that wish to put aside exclusionary policies and practices Interreligious Comparisons in Religious Studies and Theology Perry Schmidt-Leukel, Andreas Nehring, 2016-07-14 Can religions be compared For decades the discipline of religious studies was based on the assumption that they can Postmodern and postcolonial reflections however raised significant doubts In social and cultural studies the investigation of the particular often took precedence over a comparative perspective *Interreligious Comparisons in Religious Studies and Theology*

questions whether religious studies can survive if it ceases to be comparative religion Can it do justice to a globalized world if it is limited on the specific and turns a blind eye on the general While comparative approaches have come under strong pressure in religious studies they have started flourishing in Theology Comparative theology practices interfaith dialogue by means of comparative research This volume asks whether theology and religious studies are able to mutually benefit from their critical and constructive reflections Can postcolonial criticism of neutrality and objectivity in religious studies create new links with the decidedly perspectival approach of comparative theology In this collection scholars from theology and religious studies discuss the methodology of interreligious comparison in the light of recent doubts and current objections Together with the contributors Perry Schmidt Leukel and Andreas Nehring argue that after decades of critique interreligious comparison deserves to be reconsidered reconstructed and reintroduced **The Interfaith Imperative** Ross

Thompson, 2017-01-30 Globally we seem torn between local exclusive forms of religion which can cause immense spiritual and physical damage to people and a bland secularism that confines the religions to safe havens each offering its own private options for spirituality within a secularized global politic In this context the religions tolerate one another but cannot engage in mutually challenging and transforming dialogue Thompson argues that it is only through dialogue that the distinctive truths of the faiths emerge Moving beyond the threefold paradigm that has limited dialogue and challenging modern secularism and postmodern relativism alike he argues for a dialogue based realism that is rooted in the Christian doctrines of creation and Trinity Turning to recent theological approaches Thompson both affirms and criticizes narrative and postliberal theologies liberation theology and the revival of negative theology The transfiguration of Jesus provides a model for the way theology proceeds in dialogue from an initial naivety through metaphysical construction and deconstruction to a new metaphorical interillumination Thompson sets forth a utopian hope for the interreligious city of God shining with the divine interilluminative rainbow light reflected from the many faiths including the secular faith *The Oxford Handbook of Mission Studies* Kirsteen Kim, Knud Jørgensen, Alison Fitchett-Climenhaga, 2022 Includes over 10 cutting edge articles on Christian mission by scholars from all continents covering the agendas agents methods social effects and self understanding of Christian mission Offers an interdisciplinary approach including theology history and social sciences Includes sections on the theory theology practice and history of mission and mission in relationship to cultures religious and societies Book jacket

Soars, Nadya Pohran, 2022-03-03 This book focuses on dual belonging within Hindu Christian contexts Written by experts in a variety of fields the chapters explore the theological philosophical and cultural anthropological debates relating to religious pluralism religious language and social identity while addressing the fact that both Hindu and Christian forms of self understandings have been significantly moulded through their interactions in South Asia and across certain Euro American horizons The limits of the definition of dual belonging are tested via case studies and contributors address the question of whether there is anything distinctive about dual belonging across

Christianity and Hinduism specifically A timely contribution to the emerging subject of dual religious belonging this book will be of interest to academics in the fields of Hindu studies and Christian theology Hindu Christian comparative theology religious pluralism interreligious relations the sociology and anthropology of religion and comparative theology and philosophy

Wounded Wisdom Ross Thompson, 2011-09-30 Most of us have lived through painful humiliating or traumatic experiences leaving us haunted and conditioned by reactions that trap us in ongoing cycles of feeling hurt and hurting others And on the wider political scale we have obviously yet to learn the art of responding well to the hurts of terrorism exploitation or more local conflicts of interest Either we resort to reciprocal violence or claim too readily the status of innocent victim The book begins by looking at three predominant negative responses It then draws on a variety of traditions from the author's own Buddhist Christian perspective exploring how deep meditation can help take us beyond the negative narratives of hurt The author finds ambivalent but broadly positive images in childhood innocence and the tragicomic fool and urges the importance of a radical and unconditional forgiveness of self and others that is grounded in both Buddhist Emptiness and the risen Christ By these means the habit of accusation that so easily dominates self and society can give way to humour and mutual wonder
