Buddhist Precept & Practice Richard F. Gombrich, 2012-11-12 First published in 1995 This study is intended as a contribution to the empirical study of religion and in particular to the study of religious change Using empirical method of using documents interviews and experiments the author tests his old hypotheses in order to formulate new ones that may lead him to the truth He focusses on the distinctions used throughout this book that are between what people say they believe and say they do and what they really believe and really do using his research of the Sinhalese Buddhists in Ceylon **Buddhist**

high standard by questioning whether it ever was as pure as a superficial reading of classical texts might suggest. It would be very difficult to provide a combination of scholarship and sympathy such as that which pervades Dr Gombrich's book and makes it a landmark in the study of religion. Out of print for many years, the book is now republished, corrected but substantially unchanged. Richard Gombrich has been Boden Professor of Sanskrit, Oxford University and Professor Fellow of Balliol College since 1976. He has published 8 books and about 40 articles, mostly on Buddhism. His most recent books are *Theravada Buddhism: A Social History from Ancient Benares to Modern Colombo* and *Buddhism Transformed: Religious Change in Sri Lanka*; the latter is intended to do for modern Sinhalese Buddhism in the cities what *Precept and Practice* did for its traditional manifestation in the countryside.

The Oxford Handbook of Buddhist Practice Paula Kane Robinson Arai, Kevin Trainor, 2022. Foregrounds the impact of embodiment in Buddhism. Highlights the diversity and fluidity of Buddhist identities. The most comprehensive available volume on Buddhist practice. Book jacket: *Precepts, Ordinations, and Practice in Medieval Japanese Tendai*. Paul Groner, 2022-07-31. Modern Japanese Buddhist monks of all denominations differ from those in other Asian countries because they frequently marry, drink alcohol and eat meat. This has caused Buddhist scholars and practitioners generally to assume that early Japanese monastics had little interest in precepts and ordinations. Some medieval Japanese exegetes, however, were obsessively concerned with these topics as they strove to understand what it meant to be a Buddhist. This landmark collection of essays by Paul Groner, one of the leading authorities on Tendai Buddhism, examines the medieval Tendai School which dominated Japanese Buddhism at that time to uncover the differences in understanding and interpreting monastic precepts and ordinations. Rather than provide an unbroken narrative account, made virtually impossible due to the number of undated apocryphal texts and those lost in the numerous fires and warfare that beset Tendai temples, as well as the difficulties of tracing how texts were used, Groner employs a multifaceted approach focusing on individual monks, texts, ceremonies, exegetical problems and institutional issues. Early chapters look at a major source of Tendai precepts, the apocryphal Brahma's Net Sutra; the Tendai scholar Annen's 841 interpretations of the universal bodhisattva precept, ordination and the historical background of his commentary on the subject, Tendai perfect sudden precepts and the Vinaya and the role of confession in the bodhisattva ordination. Groner goes on to discuss the Lotus Sutra, another key text for Tendai precepts and the monk Ken 1262-1317 and his role in developing the consecrated ordination which is still performed today. Later essays introduce Jitsudō Nink's 1307-1388 system of training by doctrinal debate and his commentary on ordinations, doctrinal discussions of killing and Tendai discussions among several lineages on whether the precepts can be lost or violated. Many of the issues discussed in the volume, particularly how to distinguish various types of Buddhist practitioners and how to conduct ordinations, continue to preoccupy Tendai monks centuries later. The book concludes with an examination of the effects of early Tendai precepts on modern practice.
