Building Technology Paperback By Ivor H Seeley In:

Building Technology Ivor H. Seeley, 1995-11-11 Describes and examines the constructional techniques choice and use of materials and the statutory requirements for domestic buildings The text is generously supported by more than 60 pages of drawings and sketches It is aimed at first and second year students in a wide variety of disciplines *Seeley and Winfield's Building Quantities Explained: Irish Edition* Ivor H. Seeley, Roger Winfield, 2009-11-19 Designed to meet the needs of students in the Republic of Ireland who are studying building measurement on degree and equivalent courses in quantity surveying building surveying and construction A new adaptation of a classic text written with exceptional clarity and authority Describes and illustrates the measurement of building work in accordance with the Agreed Rules of Measurement 4 ARM4 Contains a careful selection of worked examples of taking off accompanied by extensive explanatory notes encompassing all the basic work sections of ARM4 Includes the measurement of foundations walls windows doors finishes electrical installations cold water services external drainage and external works *Building Economics* Ivor H. Seeley, 1996-11-11 This comprehensively rewritten updated and extended new edition of this established text focuses on what has become the most important single facet of the quantity surveyor's role cost management The scope of the book has been broadened to take account of the widening and more sophisticated cost management and control service that clients now require The book examines the factors influencing building costs and how the precontract costs can be estimated analysed and controlled to ensure that buildings can be completed within the agreed budget and timescale and be of acceptable quality function effectively and provide value for money A new chapter on value management has been added together with an introductory chapter on cost modelling the chapter on life cycling costing is extended while the sections on energy conservation and occupancy costs are expanded Throughout the text many new case studies with supporting tables and diagrams are included in order to enhance the value of this book to the student and the practitioner **Building Quantities Explained** Ivor H. Seeley, Roger Winfield, 1999-11-11 A long established text that aims to meet the needs of students studying building measurement in the early years of quantity surveying and building degree courses It contains a careful selection of 28 worked examples embracing all the principal building elements and including alternative constructional methods to illustrate a range of approaches **British Paperbacks in Print**, 1985 **The Shock of the Old** David Edgerton, 2011-08-29 From the books of H G Wells to the press releases of NASA we are awash in clichéd claims about high technology's ability to change the course of history Now in *The Shock of the Old* David Edgerton offers a startling new and fresh way of thinking about the history of technology radically revising our ideas about the interaction of technology and society in the past and in the present He challenges us to view the history of technology in terms of what everyday people have actually used and continue to use rather than just sophisticated inventions Indeed many highly touted technologies from the V 2 rocket to the Concorde jet have been costly failures while many mundane discoveries like

corrugated iron become hugely important around the world Edgerton reassesses the significance of such acclaimed inventions as the Pill and information technology and underscores the continued importance of unheralded technology debunking many notions about the implications of the information age A provocative history The Shock of the Old provides an entirely new way of looking historically at the relationship between invention and innovation The British Library General Catalogue of Printed Books, 1986 to 1987 British Library,1988 Seeley and Winfield's Building Quantities Explained: Irish Edition Ivor H. Seeley,Roger Winfield,2009-11-19 Designed to meet the needs of students in the Republic of Ireland who are studying building measurement on degree and equivalent courses in quantity surveying building surveying and construction A new adaptation of a classic text written with exceptional clarity and authority Describes and illustrates the measurement of building work in accordance with the Agreed Rules of Measurement 4 ARM4 Contains a careful selection of worked examples of taking off accompanied by extensive explanatory notes encompassing all the basic work sections of ARM4 Includes the measurement of foundations walls windows doors finishes electrical installations cold water services external drainage and external works Building Maintenance Ivor H. Seeley,1987-11-20 A comprehensive up to date and illustrated exposition of building maintenance in all its aspects to serve the needs of building surveyors and other professionals involved in this activity and building surveying and architectural students It shows the great importance of properly maintaining buildings and the advisability of providing adequate feedback to the design team All the main building defects are described and illustrated and the appropriate remedial measures examined Alterations and improvements to buildings and the specifying measurement pricing tendering and contractual procedures are all examined described and illustrated In addition the planning and financing execution and supervision of maintenance work receive full consideration *Building Maintenance Technology* Lee How Son,George C. S. Yuen,1993
