Buildings and Projects, 1987-1997 Friederike Schneider,Hilde Léon,1997 he team of leonwohlhage has attracted more and more attention in recent years in the context of Berlin with its broken cityscape and wastelands Hilde Leon and Konrad Wohlhage have developed an enthusiasm for tackling difficult fallow sites and have risen to the challenges posed by this environment Their projects are reflections of an attempt to reinterpret such urban waste zonesby means of architecture and to return them as inhabitable spaces to the people of Berlin The unusual forms and intelligent detail solutions of their buildings are born out of abundant studies of material color and light on models and on paper The surprising and pleasant outcome however is that the built architecture fulfills the promise shown on the drafting table the school apartment and office buildings radiate the same grace and joyfulness as their sketched designs This may be due to the fact that leonwohlhage often turn to the Fine Arts for inspiration and to find a rhythm for a specific project design whenever possible they collaborate with artists leonwohlhage owe most of their contracts to successful participation in competitions which they have won with astonishing frequency in the past years The book conceived as a workshop report documents for the first time all built projects from 1991 to 1997 and many of the competitions from which they emerged It avoids lengthy project descriptions and instead juxtaposes the visual presentation of individual buildings with text which reflects the basic philosophy of the architects The Grove Encyclopedia of American Art Joan M.
