influence that evangelical Christian beliefs held on the political right Sarah also came to discover that she was not alone she is among a rising generation of the children of evangelicalism who are growing up and fleeing the fold who are thinking for themselves and deconstructing what feel like the alternative facts of their childhood Rigorously reported and deeply personal The Exvangelicals is the story of the people who make up this generational tipping point including Sarah herself Part memoir part investigative journalism this is the first definitive book that names and describes the post evangelical movement
