Between Ballots And Bullets Algeria's Transition From Authoritarianism:

Between Ballots and Bullets William B. Quandt, 1998 In the Arab world as elsewhere authoritarian regimes have come under pressure for change As yet however democracy has not taken root as an alternative form of governance This book on Algeria looks at both the erosion of the authoritarian model and the difficulties of making a transition to democracy Within the past decade Algeria experienced one of the most promising experiments of opening up the political system and allowing a remarkable degree of freedom That initial effort failed however when elections were won by an Islamist party that was unacceptable to the military and it was followed by an explosion of political violence that in recent years has cost at least 75 000 lives Despite this deep crisis there are reasons to believe that Algeria may emerge from its turmoil with a consensus on the need to respect pluralism and to accept the basic rules of democratic politics Blending theoretical insights with an analysis of the Algerian case this book demonstrates that democratization is likely to be a difficult process in the Middle East but that the prospects for eventual success are not as gloomy as often asserted by those who see an incompatibility between democracy and Islam

Political and Institutional Transition in North Africa Silvia Colombo, 2018-06-13 The year 2011 will go down in history as a turning point for the Arab world The popular unrest that swept across the region and led to the toppling of the Ben Ali Mubarak and Qaddhafi regimes in Tunisia Egypt and Libya has fundamentally altered the social economic and political outlooks of these countries and the region as a whole This book assesses the transition processes unleashed by the uprisings that took place in Egypt and Tunisia in 2011 The wave of unrest and popular mobilisation that swept through these countries is treated as the point of departure of long and complex processes of change manipulation restructuring and entrenchment of the institutional structures and logics that defined politics The book explores the constitutive elements of institutional development namely processes of constitution making electoral politics the changing status and power of the judiciary and the interplay between the civilian and the military

apparatuses in Egypt and Tunisia It also considers the extent to which these two countries have become more democratic as a result of their institutions being more legitimate accountable and responsive at the beginning of 2014 and from a comparative perspective The impact of temporal factors in shaping transition paths is highlighted throughout the book The book provides a comprehensive assessment of political and institutional transition processes in two key countries in North Africa and its conclusions shed light on similar processes that have taken place throughout the region since 2011 It will be a valuable resource for anyone studying Middle Eastern and North African politics area studies comparative institutional development and democratisation *The New Authoritarianism in the Middle East and North Africa* Stephen J.

King,2009-10-28 Stephen J King considers the reasons that international and domestic efforts toward democratization have failed to take hold in the Arab world Focusing on Egypt Tunisia Syria and Algeria he suggests that a complex set of variables characterizes authoritarian rule and helps to explain both its dynamism and its persistence King addresses but moves beyond how religion and the strongly patriarchal culture influence state structure policy configuration ruling coalitions and legitimization and privatization strategies He shows how the transformation of authoritarianism has taken place amid shifting social relations and political institutions and how these changes have affected the lives of millions Ultimately King s forward thinking analysis offers a way to enhance the prospects for democracy in the Middle East and North Africa An
