Beyond Capitalism Socialism A New Statement Of An Old Ideal:

Beyond capitalism & socialism : a new statement of an old ideal Tobias J. Tobias J. Lanz (ed),2008 Beyond Capitalism & Socialism Tobias J. Lanz,2008 Explaining the socio economic theory of distributism this anthology argues that political economic and social liberties and freedom are penalized under both socialism and capitalism With distributism and other third way alternatives to capitalism the human person the family and the community take precedence over bureaucrats and barons Society exists for man not the other way around The Common Good Bruno Petrusic,2024-09-17 The Catholic Social Teaching CST Rome Exchange Advanced Training Experience CREATE is the new initiative of the Faculty of Social Science FASS at the Pontifical University Saint Thomas Aquinas Angelicum in Rome Currently focused on Central and Eastern Europe CEE it provides ways for students and experts in Catholic social teaching CST to access resources and training in Rome so as to develop their knowledge and their capability in using CST for resolving problems faced in their local reality Catholic social teaching Rome Exchange Advanced Training Experience starts from two basic ideas 1 Catholic social thought is a powerful resource in the mission of the Church today but often it needs to be more widely known and better operationalised in practical situations 2 Rome is a centre for the development of Catholic social thought by bringing students and experts to Rome for short or longer stays we can help them to improve their knowledge of CST and practical skills in implementing it while ensuring that they stay connected with their home region CREATE is an integrated set of 5 activities Expert Council EC a network of professors and experts from different Catholic Higher Education Institutions CHEIs in the region meeting once a year in Rome CREATE Prize CP an annual competition starting in 2021 for an original essay by a young researcher student from the CEE on some application of CST to society Salamanca Process Scholarships SP doctorate scholarship and post doc scholarships for Dominican candidates sisters and brothers from Central and Eastern Europe as part of the Salamanca Process of the Dominican Order Laudato si Scholarships LS doctorate and post doc scholarships for young people from the CEE region to develop their research in their home countries and institutions with support from FASS professors Laudato si scholars will come in Rome regularly over a 2 3 year period in order to take advantage of the resources provided by the FASS and the central Catholic institutions in Rome CST Toolkit Scholarships TX a semester long programme of courses in CST January to June starting in 2022 for CEE students at the masters or doctorate level The WASP Question Andrew Fraser,2011 Fraser offers a groundbreaking contribution to the project of synthesizing Anglo American constitutional and legal history with the evolutionary biology of ethnicity and a Christian ethno theology The WASP Question is valuable for focusing attention on the plight of Anglo Saxon societies assailed by runaway materialism and imposed diversity Abraham Lincoln's Statesmanship and the Limits of Liberal Democracy Jon D. Schaff,2019-07-26 This bold groundbreaking study of American political development assesses the presidency of Abraham Lincoln through the lenses of governmental power economic policy expansion of executive power and natural rights to show how Lincoln not only

believed in the limitations of presidential power but also dedicated his presidency to restraining the scope and range of it. Though Lincoln's presidency is inextricably linked to the Civil War and he is best known for his defense of the Union and executive wartime leadership, Lincoln believed that Congress should be at the helm of public policy making. Likewise, Lincoln may have embraced limited government in vague terms but he strongly supported effective rule of law and distribution of income and wealth. Placing the Lincoln presidency within a deeper and more meaningful historical context, *Abraham Lincoln's Statesmanship and the Limits of Liberal Democracy* highlights Lincoln's significance in the development of American power institutions and social movement politics. Using Lincoln's prepresidential and presidential words and actions, this book argues that decent government demands a balance of competing goods and the strong statesmanship that Lincoln exemplified. Instead of relying too heavily on the will of the people and institutional solutions to help prevent tyranny, Jon D. Schaff proposes that American democracy would be better served by a moderate and prudential statesmanship such as Lincoln's, which would help limit democratic excesses. Schaff explains how Lincoln's views on prudence, moderation, natural rights, and economics contain the notion of limits, then views Lincoln's political and presidential leadership through the same lens. He compares Lincoln's views on governmental powers with the defense of unlimited government by twentieth-century progressives and shows how Lincoln's theory of labor anticipated twentieth-century distributist economic thought. Schaff's unique exploration falls squarely between historians who consider Lincoln a protoprogressive and those who say his presidency was a harbinger of industrialized corporatized America. In analyzing Lincoln's approach, *Abraham Lincoln's Statesmanship and the Limits of Liberal Democracy* rejects the idea he was a revolutionary statesman and instead lifts up Lincoln's own affinity for limited presidential power, making the case for a modest approach to presidential power today based on this understanding of Lincoln's statesmanship. As a counterpoint to the contemporary landscape of bitter uncivil politics, Schaff points to Lincoln's statesmanship as a model for better ways of engaging in politics in a democracy.

Sustainable Abundance for All Ted Nunez, 2018-01-15
 What constitutes the good life and authentic Christian leadership in a high-speed technological society geared to perpetual economic growth? In a world of rapid change and heightened risks, how do we move beyond the tyranny of emergency and polarization toward a politics of engagement and time oriented to the long-term common good? Taking up key themes in the social teaching of Popes Benedict XVI and Francis, *Sustainable Abundance for All* argues that life in a risky runaway world requires new forms of Christian praxis that are both forward-looking and rooted in tradition. Among the issues addressed are pathways toward sustainable development in the Anthropocene, automation and the transition to post-jobs society, the precautionary debate over new technologies, and the dangers of becoming people of the device. *Sustainable Abundance for All* lays the groundwork for new
