Beyond Lion Rock The Story Of Cathay Pacific Airways:

Beyond Lion Rock Gavin Young, 1988-01-01 *Beyond Lion Rock* Gavin Young, 2012-04-26 In 1946 Roy Farrell and Syd de Kantzow's beloved battered wartime DC 3 touched down in Shanghai for the first time. On board was a cargo of morning coats and toothbrushes from New York forging the first post-war supply route across the treacherous eastern Himalayas. The international airline now known as Cathay Pacific was born. Gavin Young tells the swashbuckling story of an empire of the air, a thrilling action-packed adventure that began in an era closer to Biggles and biplanes held together by wire and safety pins than to our own Pioneers like Farrell and de Kantzow, who would have had plenty of time to enjoy the dawn over Kangchebjunga. Would they think of us with envy or contempt, cruising seven miles up with hundreds of passengers, air conditioning, i-flight concerts, movies, hot four-course meals with an elaborate wine list and all mod cons? All this in forty years. Could the world have changed so much and so fast? This is Gavin Young himself eloquently reflecting on the extraordinary changes in air travel. There can be little doubt where his own sympathies lie.

China Bound Robert Bickers, 2020-03-05 From its origins in Liverpool in 1816, one unusual British firm has threaded a way through two centuries that have seen tumultuous events and epochal transformations in technologies and societies. John Swire & Sons, a small trading company that began by importing dyes, cotton and apples from the Americas, now directs a highly diversified group of interests operating across the globe but with a core focus on Asia. From 1866, its fate was intertwined with developments in China, with the story of steam and later of flight and with the movements of people and of goods that made the modern world. *China Bound* charts the story of the firm, its family owners and staff, its operations, its successes and its disasters as it endured wars, uprisings and revolutions, the rise and fall of empires, China's, Britain's, Japan's and the twists and turns of the global economy. This is the story of a business that reshaped Hong Kong, developed Cathay Pacific Airways, dominated China's pre-Second World War shipping industry and helped pioneer containerization. Robert Bickers' remarkable new book is the history of a business and of its worlds of modern China, Britain and of the globalization that entangled them: of compradors, ship owners and seamen, sugar travellers, tea tasters and stuff merchants, revolutionaries, pirates and Taipans. Essential reading for anyone with an interest in global commerce, *China Bound* provides an intimate history that helps explain the shape of Asia today.

International Bibliography of Business History Francis Goodall, Terry Gourvish, Steven Tolliday, 2013-12-16 The field of business history has changed and grown dramatically over the last few years. There is less interest in the traditional company-centred approach and more concern about the wider business context. With the growth of multi-national corporations in the 1980s, international and inter-firm comparisons have gained in importance. In addition, there has been a move towards improving links with mainstream economic, financial and social history through techniques and outlook. The *International Bibliography of Business History* brings all of the strands together and provides the user with a comprehensive guide to the literature in the field. The Bibliography is a unique volume which covers the depth and breadth of research in business history. This

exhaustive volume has been compiled by a team of subject specialists from around the world under the editorship of three prestigious business historians
