Beyond Exception Ahmed Kanna, Amélie Le Renard, Neha Vora, 2020-08-15 Over the nearly two decades that they have each been conducting fieldwork in the Arabian Peninsula Ahmed Kanna Amélie Le Renard and Neha Vora have regularly encountered exoticizing and exceptionalist discourses about the region and its people political systems and prevalent cultural practices These persistent encounters became the springboard for this book a reflection on conducting fieldwork within a field that is marked by such representations The three focus on deconstructing the exceptionalist representations that circulate about the Arabian Peninsula They analyze what exceptionalism does how it is used by various people and how it helps shape power relations in the societies they study They propose ways that this analysis of exceptionalism provides tools for rethinking the concepts that have become commonplace structuring narratives and analytical frameworks within fieldwork in and on the Arabian Peninsula They ask What would not only Middle East studies but studies of postcolonial societies and global capitalism in other parts of the world look like if the Arabian Peninsula was central rather than peripheral or exceptional to ongoing sociohistorical processes and representational practices The authors explore how the exceptionalizing discourses that permeate Arabian Peninsula studies spring from colonialist discourses still operative in anthropology and sociology more generally and suggest that de exceptionalizing the region

within their disciplines can offer opportunities for decolonized knowledge production *Beyond Same-Sex Marriage* Ronald C. Den Otter, 2016-09-06 Although the debate over same sex marriage in the United States has ended no one seems to know what lies on the horizon The conversation about what marriage could be like in the future is no longer confined to academics In his dissent in Obergefell Chief Justice Roberts linked the constitutionally mandated legal recognition of same sex marriage to the possibility that states may also have to recognize multi person intimate relationships as well to avoid discriminating against plural marriage enthusiasts The popularity of television shows like TLC's *Sister Wives* and HBO's *Big Love* suggests that Americans no longer can be dismissive of the possibility that in the foreseeable future marriage could and perhaps should look very different than it does today Rather than settling the question of whether states ought to abolish marriage make it more inclusive contractual or call it something else this book exposes readers to some of the normative legal and empirical questions that Americans must address before they can deliberate thoughtfully about whether to keep the marital status quo where monogamy remains privileged Unlike much of the debate over same sex marriage they exchange reasons with one another as they discuss marital reform This book is for ordinary Americans their elected representatives and judges to help them ultimately decide whether they want to continue to define marriage so narrowly make it more inclusive to avoid discrimination or have the state leave the marriage business This edited interdisciplinary volume contains eight original contributions all of which illuminate important but often neglected areas of the topic **Beyond the Classroom: Gender**

Beyond Nostalgia Ruth E. Ray, 2000 For three years Ruth E Ray visited and participated in eight writing groups at six senior centers in inner city and suburban Detroit looking for ways in which the elderly fashion their memories through personal narrative Her innovative book involves the reader in the construction of life stories as a richly rewarding and highly social process that often reveals the types of relationships that dominate the lives of group members the majority of whom are women Because Ray wrote and responded herself and shares her anxiety and triumph in presenting her writing to women old enough to be her mother some of a different race and class *Beyond Nostalgia* is an excellent primer for professionals working with diverse groups in a variety of settings It is also an important contribution to the emerging field of feminist gerontology Ray's book demonstrates its own thesis that the presentation and negotiation of life stories in writing groups initiates change and personal growth among older people Drawing on personal observations the give and take of meeting conversations lengthy interviews and the life stories themselves Ray tells a story of adult development through personal narrative She recreates the group process through which age peers begin to articulate what life means both individually and collectively The writing groups of older adults that Ray studied challenged their members to consider not just cultural influences but generational effects on the evolving content and structure of their life stories Age

Ray argues has been largely ignored by feminists and she makes a strong case for the need to learn how women make meaning of their lives across the life span As an important document and analysis of that process Beyond Nostalgia should appeal to academics and practitioners in women s studies composition studies gerontology developmental psychology sociology social work and linguistics and to anyone who works with older people Transcultural Feminist Philosophy Yuanfang Dai,2019-12-30 The question of difference how to accommodate the complexity and diversity of women s experiences remains a central point of reference in debates among feminist thinkers In Transcultural Feminist Philosophy Rethinking Difference and Solidarity Through Chinese American Encounters Yuanfang Dai addresses influential approaches to the feminist difference critique Acknowledging that gender oppression assumes different forms in different social and cultural locations Dai denies that this rules out generalizing about women s experiences She proposes a category of women that captures and respects differences and dynamics among women and that can inform possibilities for women in the future Through a critical examination of multicultural and postcolonial feminisms she argues that we need both to rethink the concept of culture and to rework multiculturalism as an analytical and political idea Developing a notion of transculturalism she draws on Chinese feminist scholarship as she explores how a transcultural approach can address tensions between cultural differences and feminist solidarity Transcultural thought and action offers a new way to explore the conditions of women s collective struggles **Beyond Tradition and Modernity** Grace Fong,Nanxiu Qian,Harriet Zurndorfer,2004-02-01 Beyond Tradition and Modernity is a collection of original essays which considers the complexities behind the dramatic changes generated in China during the last decades of the nineteenth and the first decades of the twentieth century As men and women literally or metaphorically crossed into new geographical worlds they came to express their understanding of the expanding universe in a variety of ways which cannot be neatly labeled either traditional or modern The contributors to this volume demonstrate how the creativity of these writers marked a new moment in historical and literary practices transcending this usual binary and simple teleology Their essays expose how the ethnographic literary and educational projects of these men and women gave voice to new ideals and ideas that reflect the changing boundaries of gender at this time
