Beyond Listening Alison Clark, Peter Moss, Anne Trine Kjørholt, 2005

Listening Beyond the Echoes Nick Couldry, 2015-12-03 In this book Nick Couldry media and cultural theorist from the London School of Economics asks what are the priorities for media and cultural research today at a time of the intensified mediation of all fields of social life threats to democratic legitimacy and serious instability on the global political stage The book calls for a decentered media research that rejects easy assumptions about media's role in holding societies together and instead looks more critically at the difference media make on the ground to the material conditions of our lives In what

detailed ways do media transform knowledge and agency in daily life How do media contribute to the culture of democratic politics And most difficult of all how can we live ethically with and through media Couldry s previous work is well known for its breadth ranging across media sociology media theory and cultural theory Here he draws also on political theory and ethics to develop a tightly argued account of how media and cultural research must now reorient itself if it is to remain relevant and critical Nick Couldry is Reader in Media Communications and Culture at the London School of Economics and Political Science He is the author or editor of five books including Media Rituals A Critical Approach Routledge 2003 The Place of Media Power Routledge 2000 and coedited with James Curran Contesting Media Power Rowman and Littlefield 2003
