Beyond Primitivism Beyond Primitivism:

Beyond Primitivism Jacob Kęhinde Olupona, 2004 At a time when local traditions across the world are forcibly colliding with global culture *Beyond Primitivism* explores the future of indigenous religions as they encounter modernity and globalisation Perspectives on Method and Theory in the Study of Religion International Association for the History of Religions. Congress, 2000 This volume is the adjunct proceedings on methodology from the XVIIth Congress of the International Association for the History of Religions held in Mexico City in 1995 Taken together the essays present a thorough and coherent perspective on studying religion as an item of human culture **Reaching Beyond** Stanley M. Burgess, 2009-07-01 Throughout recorded history mankind has attempted to define perfection This always has been a most perplexing task almost as difficult as attaining perfection once the term has been defined One of the most vexing problems facing the perfectionist has been how to elevate themselves above matter especially the body in order to emulate their god model *Reaching Beyond* Chapters in the History of Perfectionism highlights the concept of perfection in primitive man in both Old and New Testaments and in a variety of perfectionist individuals and movements throughout Christian history including the Montanists the Medieval Apocalyptist Joachim of Fiore the rationalist Thomas Aquinas a leading Eastern Orthodox mystic St Symeon the New Theologian Calvin and his followers early modern Puritans and later primitivists and the Pentecostals who strive for both purity and preparation In short this book is a study of the human perfectionist impulse and its motivations In certain cases perfectionism is a reaction against limitation inadequacy incompleteness and evil a rejection of comfortable popular religion In other instances perfectionism is a more positive effort a striving after holiness or knowledge a preparation for the parousia or a quest for a return to primitive religious roots *Beyond Salvation* Edmund J. Rybarczyk, 2006-10-01 Despite their historical and cultural differences Eastern Orthodox Christians and Classical Pentecostals share some surprising similarities Both incorporate holistic approaches to Christian spirituality Both manifest an organic approach to ecclesiology Both emphasize that Christianity is not just about being saved Most strikingly both traditions embrace the effective and even mystical dimensions of Christian transformation This study locates both traditions within their cultural and philosophical meta contexts and suggests avenues of mutual understanding No longer can these two groups representing ancient and recent Christian expressions afford to be strangers *Beyond Exoticism* Timothy D. Taylor, 2007-03-05 Study of how systems of power and domination have shaped representations of otherness in music **From Primitive to Indigenous** James L. Cox, 2016-04-22 The academic study of Indigenous Religions developed historically from missiological and anthropological sources but little analysis has been devoted to this classification within departments of religious studies Evaluating this assumption in the light of case studies drawn from Zimbabwe Alaska and shamanic traditions and in view of current debates over primitivism James Cox mounts a defence for the scholarly use of the category Indigenous Religions **Philosophy Beyond Spacetime** Christian Wüthrich, Baptiste Le Bihan, Nick

Huggett,2021-08-26 Quantum gravity seeks a unified theory in which quantum matter is dynamically related to generally relativistic spacetime Although a continuing work in progress research programmes in the field such as string theory loop quantum gravity and causal set theory make it clear that a successful theory of quantum gravity will raise important challenges to our conceptions of space time and matter perhaps abolishing them altogether as fundamental entities But just as important there is good reason to think that some of the problems in finding a theory of quantum gravity are themselves conceptual in need of philosophical analysis Philosophy Beyond Spacetime Implications from Quantum Gravity assembles original papers from philosophers and one physicist establishing a definitive statement of the current state of play on which future research into this area can build Aiming to expand knowledge and understanding of the philosophy of quantum gravity it emphasizes how debates in metaphysics regarding emergence composition or grounding for example shed light on the conceptual questions of quantum gravity And conversely how quantum theories of space and time call into question philosophical views grounded in classical spacetime Furthermore the philosophy of quantum gravity raises methodological questions for instance concerning the relation between physics and metaphysics The essays have been chosen to demonstrate to a wide range of philosophers the significance of the subject as well as making novel contributions to it

perspective on the organic whole The expression Gestalt seems to come closest to describing the wholeness Plato may be considered to be the most prominent representative of classical philosophy to develop a Gestalt philosophy and also the last to do so in antiquity *After Modernism* Pelagia Goulimari, 2023-03-31 While celebrating the centenary of the annus mirabilis of modernism we now encounter modernism after postmodernist poststructuralist postcolonial critical race feminist queer and trans writing and theory Out of the figures narratives and concepts they have developed a less universal more global decentred context specific interconnected modernism emerges In after modernism the meanings of after include periodisation homage and critique This book attends to neglected genealogies and intertexts high and low yet offering unacknowledged ontological epistemological conceptual and figurative resources How have artists of the Global South negotiated the hierarchical division of art capital into Western high art vs Global South culture Modernity's location has been the Western metropolis but other origin stories have been centring slavery colonialism the nation state If modernity did not originate once why not multiple and still to come modernities Instead of a universalizable Western modernity vs local non Western traditions the contributors to this book discern multiple modern traditions Rather than reifying their heterogeneity the authors tunnel for lost transnational connections The nation state and the citizen have together defined Western modernity and the civilized Yet they have required the gender binary gender and sexual normativity assimilation exclusion forced migration partition segregation In between the public and the private humans and the natural world this book explores a multiple relational modern subjectivity collectivity and cosmic interconnectivity whose space is indivisible entangled ever folding and unfolding It was originally published as a special issue of the journal *Angelaki*
