Dreyer's English meets Schott's Original Miscellany in this delicious tour of the lesser-known wonders of the language world, perfect for language lovers, word nerds, and the incurably curious. A delightful rollick through language unlike any you've ever experienced. As the inventor of the bestselling game about words, League of the Lexicon, Joshua Blackburn has created an A-Z that's part encyclopedia, part treasure map, and an all-around joy for anyone interested in words and language. Meticulously researched, joyfully written, and beautifully designed, The Language Lover's Lexipedia dives into the quirky, the curious, and the unexpected to reveal a world of language you never knew existed. Discover the biting humor of Scottish insults, you're talking mince, the curious history of the Chinese typewriter, and the strange yet vivid color names of Elizabethan England, like dead Spaniard and lusty gallant. Whether it's the dark history of the Index of Banned Books or the bewildering grammar of Yoda, each pithy entry is brimming with knowledge and wit. Illustrated with enchanting line art that evokes a 19th-century reference book, The Language Lover's Lexipedia is as visually delightful as it is intellectually captivating. It's stuffed with quirky lists, surprising facts, and illuminating stories, making it the ultimate gift for any language lover. Want to uncover the secret of Ikea product names? Decode the euphemisms of Victorian England. Or understand why pedants are pedantic. This book has you covered, and then some. Blackburn's infectious enthusiasm turns linguistic oddities into pure entertainment and offers up endless rabbit holes to dive down with. Each thoughtful entry promises to charm, educate, and tickle. From the linguistic history of marijuana to the origins of nonsense, The Language Lover's Lexipedia is a must-read for anyone who revels in the beauty, humor, and sheer weirdness of language.

Making Empire Jane Ohlmeyer, 2023. Ireland was England's oldest colony. Making Empire revisits the history of empire in Ireland in a time of Brexit, the culture wars, and the campaigns around Black Lives Matter, and

Statues must fall to better understand how it has formed the present and how it might shape the future Empire and imperial frameworks policies practices and cultures have shaped the history of the world for the last two millennia It is nation states that are the blip on the historical horizon Making Empire re examines empire as process and Ireland s role in it through the lens of early modernity It covers the two hundred years between the mid sixteenth century and the mid eighteenth century that equate roughly to the timespan of the First English Empire c 1550 c 1770s Ireland was England s oldest colony How then did the English empire actually function in early modern Ireland and how did this change over time What did access to European empires mean for people living in Ireland This book answers these questions by interrogating four interconnected themes First that Ireland formed an integral part of the English imperial system Second that the Irish operated as agents of empire s Third Ireland served as laboratory in and for the English empire Finally it examines the impact that empire s had on people living in early modern Ireland Even though the book s focus will be on Ireland and the English empire the Irish were trans imperial and engaged with all of the early modern imperial powers It is therefore critical where possible and appropriate to look to other European and global empires for meaningful comparisons and connections in this era of expansionism What becomes clear is that colonisation was not a single occurrence but an iterative and durable process that impacted different parts of Ireland at different times and in different ways That imperialism was about the exercise of power violence coercion and expropriation Strategies about how best to turn conquest into profit to mobilise and control Ireland s natural resources especially land and labour varied but the reality of everyday life did not change and provoked a wide variety of responses ranging from acceptance and assimilation to resistance This book based on the 2021 James Ford Lectures Oxford University suggests that the moment has come revisit the history of empire if only to better understand how it has formed the present and how this might shape the future
