Adolescents in Therapy Susan T. Dennison, 1998 This how to do it book has been written primarily for experienced group clinicians social workers psychologists psychiatrists and school counselors However it may also be adapted for use by other experienced helping professionals who work with troubled adolescents in group settings such as art therapists special education teachers recreation therapists and speech language pathologists Although the activities are intended for groups modifications can easily be made for use in individual therapy **Creative Arts-Based Group Therapy with Adolescents**

Craig Haen, Nancy Boyd Webb, 2019-01-15 Creative Arts Based Group Therapy with Adolescents provides principles for effective use of different arts based approaches in adolescent group therapy grounding these principles in neuroscience and group process practice based evidence It includes chapters covering each of the main creative arts therapy modalities art therapy bibliotherapy dance movement therapy drama therapy music therapy and poetry expressive writing therapy written by respected contributors who are expert in the application of these modalities in the context of groups These methods are uniquely effective for engaging adolescents and addressing many of the developmental familial and societal problems that they face The text offers theory and guiding principle while also providing a comprehensive resource for group therapists of

diverse disciplines who wish to incorporate creative arts based methods into their practice with teens

Handbook of Behavioral Group Therapy Dennis Upper, Steven M. Ross, 2013-11-11 In 1977 the current editors contributed a review article on behavioral group therapy to a volume of Hersen Miller and Eisler's Progress in Behavior Modification series 1977 At that time we noted that despite the advantages to both clinicians and clients of conducting behavioral treatments in groups clinical developments and research in this area were still at a relatively rudimentary level The majority of studies in the behavioral group therapy literature we reviewed reported the direct transfer of an individual behavior therapy procedure such as systematic desensitization to a group of clients with homogeneous problems such as snake phobia or test anxiety Groups were used in many studies merely to generate sufficient numbers of subjects to allow various types of interventions to be compared rather than to examine group process variables per se Only a limited amount of attention had been given to whether these group interaction variables such as group discussion sharing ideas and feelings and mutual feedback and reinforcement might enhance individually oriented procedures applied in a group The 8 years since this original chapter was written have seen a significant growth in both the breadth and depth of clinical research and work in the behavioral group therapy field This growth was documented in part in a three volume series on behavioral group therapy by the current editors Upper Ross 1979 1980 1981
