Alchemy and Psychotherapy Dale Mathers, 2014-03-05 Alchemical symbols are part of popular culture most recently popularised in the Harry Potter books Alchemy intrigued Carl Jung the founder of analytical psychology It inspired him as he wrote the Red Book the journal of his voyage of internal discovery He devoted much of his life to it using alchemical symbols as metaphors for unconscious processes Alchemy and Psychotherapy explores the issue of alchemy in the consulting room and its application to social and political issues This book argues against the dominant discourse in contemporary psychotherapy scientific materialism and for the discovery of spiritual meaning Alchemy and Psychotherapy has four main sections Alchemy and meaning looks at the history of alchemy particularly the symbol of the coniunctio sacred marriage a metaphor for the therapeutic relationship The symbolic attitude explores working with dreams fairytales astrology and the body each of which is a symbolic language The spirit and the natural world discusses the concept of burn out of therapists our ecological resources the mystical aspects of quantum physics and the philosophical underpinning of symbol formation Clinical Applications shows alchemy s use with victims of abuse those struggling to secure gender identity in anorexia and in social healing atonement and restorative justice which apply the idea of the coniunctio Alchemy and Psychotherapy is illustrated throughout with clinical examples alchemical pictures and poetry which emphasise that alchemy is both a creative art and a science Bringing together contributors from a wide range of disciplines Dale Mathers and contributors show that therapy is both art and science that the consulting room is the alchemical laboratory and that their research is their creative engagement Alchemy and Psychotherapy will be a valuable resource for practitioners students at all levels of psychotherapy analytical psychology psychoanalysis and creative art based therapies and for creative practitioners in film literature and performing arts who draw on Jung s ideas

Exploring Spirituality from a Post-Jungian Perspective

Ruth Williams, 2023-03-03 Derived from Ruth Williams more than 40 year immersion in spiritual practice as well as her clinical experience as a Jungian analyst this thought provoking volume explores the nature of spiritual paths and trajectories in practical ways incorporating personal anecdote and ground breaking academic research and providing a window into how Jungian practitioners work with soul and spirit Williams explores the nature of being a human using the Yiddish idea of a person being a mensch which means being a decent human being having humanity and living ethically with integrity The idea of grace is the thread that runs through the book the mystery that binds things together and makes life meaningful purposeful potentially joyful and spiritually fulfilling Williams sees grace as being that which underpins and lies behind synchronicity and divinatory practices and as a force by which we can learn to be guided Rooted in clinical work Exploring Spirituality from a Post Jungian Perspective is fascinating reading for Jungian analysts therapists and academics as well as for general readers interested in a spiritual journey both personally and for clinical purposes

Psychotherapy, the Alchemical Imagination and Metaphors of Substance Alan Bleakley, 2023-07-04 Alchemy is popularly viewed as a secret

way of turning worthless base metal into gold and then a precursor to modern chemistry This is often taken as a metaphor for psychological development This book describes an innovative third way for both the education and exercise of an alchemical imagination that embraces both material matters and psychological insight alchemy as lyrical poetics or the intensive production of embodied metaphor Alchemy here is viewed as an immanent set of metaphor driven best practices for indwelling complex and contradictory earthly matters in a sensual artistic and humane manner Or again it describes best psychotherapeutic practice Alchemy is read not as a medium for personal growth but optimal co existence with the natural world It is an eco logical rather than ego logical project with deep aesthetic concerns education of the senses in close noticing and political intentions a democracy of worldly things The book echoes post Freudian developments in psychoanalysis that avoid the mysticism of symbol systems to work rather with everyday signs and linguistic registers such as embodied metaphors keeping the focus on known and sensed phenomena rather than abstractions

Alchemy in the Anthropocene Alan Bleakley, 2025-10-02 Medieval and Renaissance European alchemy peaking at the time of Shakespeare is a heavily coded symbolic system There are two historical streams to alchemy First as a misguided literal attempt to convert base metals into gold that acted as a precursor to modern chemistry Second as an abstract symbol system whose development and study aimed at gaining higher consciousness Carl Jung single handedly recovered this alchemical tradition for modern times by treating alchemy as a coded symbol system of psychological growth and enlightenment tapping into archetypes This book offers a third way between matter and symbol alchemy as embodied metaphor transcending the literal and engaging the poetic This approach differs from that of Jung who turned a materialist alchemy into an abstract psychological code In the approach taken in this book alchemy offers an education into an imagination of matter offering a framework for contemporary living where a language of substances replaces abstract terms describing psychological life But alchemy has other meanings and purposes for example as a once outlawed activity promising jail sentences for practitioners alchemy is essentially political It restores power not just to citizens to resist orthodoxies but also to material life otherwise seen as inanimate Giving meaning to the natural material world echoes indigenous traditions that see this world as animated and populated by unseen but felt energies Such energies are the lifeblood of imagination and creativity as the poetic impulse in humanity The Anthropocene is an emergent age of ecological anxiety We need languages and symbol and sign systems to effectively navigate and make meaning of this unfolding age
