ATKINSON 1862 1932 He only used the pseudonym once obviously wishing to emphasize the writer s anonymity Atkinson was editor of the popular magazine New Thought from 1901 to 1905 and editor of the journal Advanced Thought from 1916 to 1919 He authored dozens of New Thought books under numerous pseudonyms including Yogi some of which are likely still unknown today *Alchemy in the Nineteenth Century* Helena Petrovna Blavatsky,2014-08-05 THE language of archaic chemistry or Alchemy has always been like that of the earlier religions symbolical We have shown in the Secret Doctrine that everything in this world of effects has three attributes or the triple synthesis of the seven principles In order to state this more clearly let us say that everything which exists in the world around us is made up of three principles and four aspects just as we have shown to be the case with man As man is a complex unity consisting of a body a rational soul and an immortal spirit so each object in nature possesses an objective exterior a vital soul and a divine spark which is purely spiritual and subjective The Secret Doctrine Helena Petrovna Blavatsky,1993-01-01 A fountain of esoteric knowledge for deep truth seekers this classic work examines the birth and structure of the universe and how everything has the Divine as its source It also traces the development of humanity drawing from sacred scriptures mythology and legends to give a spiritual view of human beings Volume III is an index to help readers find any topic easily Illustrations
