Anglo-Jap Relations Volume 1 NA NA,2002-12-03 **Post-war Japan as a Sea Power** Alessio Patalano,2015-04-23 In Post war Japan as a Sea Power Alessio Patalano incorporates new exclusive source material to develop an innovative approach to the study of post war Japan as a military power This archival based history of Asia s most advanced navy the Japanese Maritime Self Defence Force JMSDF looks beyond the traditional perspective of viewing the modern Japanese military in light of the country s alliance with the US The book places the institution in a historical context analysing its imperial legacy and the role of Japan s shattering defeat in WWII in the post war emergence of Japan as East Asia s sea power *Japan's Postwar Economic Recovery and Anglo-Japanese Relations, 1948-1962* Noriko Yokoi,2004-03-01 Ever since Japan s economy recovered in the 1960s scholars have been searching for the reasons for its meteoric postwar success Until now much research has been based on the study of Japan s society its political and economic infrastructure and its particular model of capitalism But now that American and British government documents from the 1950s have been released it emerges that the United States as part of its Cold War economic and military strategy in East Asia played a large part in assisting Japan out of its economic difficulties whereas Britain s role seems to have been more ambivalent and circumspect This book sets out to rectify the lack of full research into Anglo Japanese trade relations from the late 1940s up to the early 1960s and to examine the impact of cultural differences and perceptions on diplomacy as well as the influence of prevailing political considerations like the Cold War This book highlights the ebbs and flows in bilateral relations as Japan increased its economic and financial presence in Southeast Asia and Britain retreated politically and economically from its Empire in the East **The Story of the Great War, Volume 1** Churchill, Miller, and Reynolds,2016-02-19 World War I WWI or WW1 also known as the First World War or the Great War was a global war centred in Europe that began on 28 July 1914 and lasted until 11 November 1918 More than 70 million military personnel including 60 million Europeans were mobilised in one of the largest wars in history Over 9 million combatants and 7 million civilians died as a result of the war including the victims of a number of genocides a casualty rate exacerbated by the belligerents technological and industrial sophistication and the tactical stalemate caused by trench warfare a grueling form of warfare in which the defender held the advantage It was one of the deadliest conflicts in history and paved the way for major political changes including revolutions in many of the nations involved The war drew in all the world s economic great powers assembled in two opposing alliances the Allies based on the Triple Entente of the United Kingdom British Empire France and the Russian Empire versus the Central Powers of Germany and Austria Hungary Although Italy was a member of the Triple Alliance alongside Germany and Austria Hungary it did not join the Central Powers as Austria Hungary had taken the offensive against the terms of the alliance These alliances were reorganised and expanded as more nations entered the war Italy Japan and the United States joined the Allies while the Ottoman Empire and Bulgaria joined the Central Powers The trigger for the war was the assassination of Archduke Franz

Ferdinand of Austria heir to the throne of Austria Hungary by Yugoslav nationalist Gavrilo Princip in Sarajevo on 28 June 1914 This set off a diplomatic crisis when Austria Hungary delivered an ultimatum to the Kingdom of Serbia and entangled international alliances formed over the previous decades were invoked Within weeks the major powers were at war and the conflict soon spread around the world On 28 July the Austro Hungarians declared war on Serbia and subsequently invaded As Russia mobilised in support of Serbia Germany invaded neutral Belgium and Luxembourg before moving towards France leading the United Kingdom to declare war on Germany After the German march on Paris was halted what became known as the Western Front settled into a battle of attrition with a trench line that would change little until 1917 Meanwhile on the Eastern Front the Russian army was successful against the Austro Hungarians but was stopped in its invasion of East Prussia by the Germans In November 1914 the Ottoman Empire joined the Central Powers opening fronts in the Caucasus Mesopotamia and the Sinai Italy joined the Allies in 1915 and Bulgaria joined the Central Powers in the same year while Romania joined the Allies in 1916 followed by United States in 1917 The Russian government collapsed in March 1917 and a subsequent revolution in November brought the Russians to terms with the Central Powers via the Treaty of Brest Litovsk which constituted a massive German victory After a stunning German offensive along the Western Front in the spring of 1918 the Allies rallied and drove back the Germans in a series of successful offensives On 4 November 1918 the Austro Hungarian empire agreed to an armistice and Germany which had its own trouble with revolutionaries agreed to an armistice on 11 November 1918 ending the war in victory for the Allies By the end of the war the German Empire Russian Empire Austro Hungarian Empire and the Ottoman Empire had ceased to exist National borders were redrawn with several independent nations restored or created and Germany's colonies were parceled out among the winners During the Paris Peace Conference of 1919 the Big Four Britain France the United States and Italy imposed their terms in a series of treaties The League of Nations was formed with the aim of preventing any repetition of such a conflict This however failed with economic depression renewed European nationalism weakened member states and the German feeling of humiliation contributing to the rise of Nazism These conditions eventually contributed to World War II

Foreign Relations of the United States, 1951: Asia and the Pacific ,1977 **Britain and Japan** Hugh Cortazzi,2025-10-01 This tenth volume in the series comprising some fifty essays offers a further wide ranging selection of essays on different themes and personalities grouped thematically from portraits of key figures such as Stamford Raffles and Lord Lytton to the history of Japanese trade and investment in the UK such as NSK at Peterlee and Mitsubishi Electric in Scotland from scholars such as Basil Hall Chamberlain to international Japanese banker Ogata Shijuro

Foreign Relations of the United States United States. Department of State,1951 Book Review Digest ,1923 A New Strategy for Complex Warfare: Combined Effects in East Asia Thomas Drohan,2016-03-25 This book develops new theory for superior strategy in complex warfare The approach is comprehensive and practical and it is applied to three contemporary security crises involving the United States China the Koreas and Japan Beginning with

existing theories on strategy and culture a new interpretation of combined effects strategy is introduced based on research and years of experience Drawing from security theory and military doctrine combined effects strategy is presented as a comprehensive process that subsumes the prevailing paradigm of combined arms The entire book is written using the language of combined effects theory developed in the first chapter Extensive use of symbols text boxes and charts orients the reader on combined effects in the three cases that follow Unlike previous works this study considers security culture as a way to understand warfare conceived and waged broadly patterns of confrontation and cooperation threat perception and assessment and strategic effectiveness Also for the first time contemporary crises detail the interaction of strategies operating as lines of effect which when combined create powerful synergies A summary analysis of each case develops implications for future strategy The concluding chapter is unique in its discussion of the influence of security culture on operational concepts when lines of effect combine and how security culture informs combined effects strategy particularly for the United States This is an important book for students faculty policy makers and practitioners with interests in strategy global and US national security defense policy Asian regional security Asian studies military culture military effectiveness the future of warfare and foreign policy This book is in the Rapid Communications in Conflict and Security RCCS Series General Editor Geoffrey R H Burn **Subject Catalogue of the Library of the Royal Empire Society, Formerly Royal Colonial Institute: The Mediterranean colonies, The Middle East, Indian Empire, Burma, Ceylon, British Malaya, East Indian Islands, and the Far East** Royal Commonwealth Society. Library, Evans Lewin, 1930
