

“ASP DNA” Standards

ASP equipment is designed to meet the real needs of working police officers. In order to make it to the streets, “ASP DNA” must be reflected in every product. Some of these criteria include:

- ✓ It must make a unique and positive contribution to the law enforcement profession.
- ✓ It must demonstratively outperform anything else in its class.
- ✓ It must meet or exceed our high standards of design, quality, and reliability.

Asp Baton Training Manual:

For Security Personnel, DEFENSIVE BATON, 2020 Mürsel Sevindik,2020-04-17 This book covers Defensive Baton issues for law enforcement officer The goal is for the officers to understand and demonstrate the tactical fundamentals of the baton in an operational setting and its proper use as an intermediate impact weapon One of the major dilemmas facing law enforcement today is the continually increasing number of assaults on police officers as they perform their duties How can the officer respond to this critical situation without resorting to deadly force Modern law enforcement tool has been developed to increase officers ability to protect themselves particularly in those cases not justifying the use of deadly force That tool is the baton The ability to use force lawfully against the public is the primary factor which distinguishes the police from the rest of society The police service is unique in society as they are the only civil organization that has been given the authority to use force As a result of this responsibility the use of force by the police comes under close scrutiny by both the public and the courts The baton can be utilized when empty hand techniques are not effective A trained officer who is proficient in the use of the baton is better able to protect himself and is less likely to resort to the use of his firearm The main purpose of the baton is to stun or temporarily disable rather than cause permanent injury The baton is not designed as a lethal weapon and is not an instrument of punishment It is to be used in a skillful manner to counter or stop an aggressive subject The techniques shown in this booklet has been universally accepted and are defensible in court They are designed to work efficiently for all officers male female small large fit and the less fit Topics and techniques presented in this book will be of both great interest and great value to trainers and students of law enforcement *Practice Management for the Veterinary Team - E-Book* Heather Prendergast,2023-11-09 Comprehensive coverage of practice management skills includes leadership financial management and strategic planning as well as telephone skills appointment scheduling admitting and discharging patients and communicating with clients Coverage of clinical assisting ranges from examinations and history taking for patients to kennels and boarding procedures Veterinary Ethics and Legal Issues chapter helps you learn to protect the practice and run a practice based on ethical principles and veterinary laws End of chapter review questions reinforce key concepts and measure mastery of the content End of chapter Practice Managers Survival Checklist allows you to review the most essential information Versatile text can be used by practice managers to study for the CVPM exam Updated content highlights important technological and professional updates to the field impacting medical record management New chapters covering telehealth and practice integrative management software are included Current coverage includes a revised Leadership Professional Development and Human Resources chapter and expanded content in Strategic Planning and Marketing chapters *Pro-Systems: Baton Reverse Grip System* Joseph Truncale,2015-03-14 This baton manual takes a different approach on how to employ the standard straight police baton Whether you carry the expandable type of baton or the standard rigid model this text will provide a different perspective on how to use the baton for control and self defense

The Baton Reverse Grip System BRGS was not created to take the place of any other baton system. It was designated to increase an officer's options when employing the law enforcement straight baton in arrest and control situations. **For Security Personnel, SOFT EMPTY HAND CONTROL, 2020** Mürsel Sevindik, 2020-04-14. This book covers Soft Empty Hand Control issues for law enforcement officers. The goal is to demonstrate to officers the understanding of the principles and appropriate use of Soft Empty Hand Control techniques. Law Enforcement officers are authorized to use a range of force options to preserve the peace, prevent crimes, maintain order, and apprehend suspects. Soft empty hand techniques are the first option of physical response used to restrain a person who is resisting. By developing a high degree of proficiency with soft empty hand techniques, the officer will be able to respond in a more effective manner with a minimal amount of force. A police officer experiences different kinds of adverse situations while performing his/her duty. Sometimes his/her own life may be threatened due to a suspect's actions. Therefore, it is essential for the officer to know defensive tactics to protect him/herself and to control adverse situations. In modern society, police have different responsibilities such as crime investigation, providing security, crime control, etc. Therefore, the officer must be aware of special tactics by which he/she can defend him/herself against stabbing, grabbing, pushing, kicking, using sharp and dangerous weapons, and firearms. Within a fraction of a second, a police officer must be able to react properly; otherwise, it may prove to be a fatal situation. Every officer must be aware of defensive tactics and should be able to apply them effectively whenever required. Topics and techniques presented in this book will be of both great interest and great value to trainers and students of law enforcement.

FIREARMS INSTRUCTOR'S MANUAL R.E. Parham, 1999-01-01. This manual has been written with the Law Enforcement Firearms Instructor in mind. It is an attempt to save the instructor time by furnishing already prepared outlines that cover most of the subject currently taught by and to law enforcement personnel. The purpose of the manual is twofold. First, it can be used by current firearms instructors as a handy reference guide and also as a way of keeping all of the firearms outlines in one simple format. By preparing the manual in this fashion, all of an instructor's outlines are easily accessible should an instructor's class be challenged by the legal system. Secondly, this manual can be used as the text for firearms instructor initial certification classes. Once the new instructor completes the basic certification course, he or she will have a complete set of outlines that can be used for teaching their classes. The first four outlines in this manual, The Role of the Firearms Instructor, Safety Responsibilities, Record Keeping, and Discipline, are generally used during instructor development classes. The rest of the outlines, while also used in instructor development classes, are also appropriate for basic recruit classes as well as classes that are designed for in-service personnel. The Appendix contains material that can be used as class handouts or made into overheads for class presentations. Some of the courses can be used for general firearms qualification, while others are used for training a specific skill such as linear and lateral movement or multiple attackers. The manual has been written to take the pain out of the office work part of being a firearms instructor and to give the instructor more time to teach.

Blue

Guardian Control Tactics Instructor Manual Tom Gillis,2016-11-30 The Blue Guardian Control Tactics Program is created with Canadian police and security in mind although international students will benefit from the technical and tactical training also Topics include Use of Force Handcuffing Baton Use Takedowns Ground Fighting Control Holds and more Tom Gillis Control Tactics Manual is a very comprehensive complete training manual for trainers that teach street tactics for law enforcement officers It organizes each section into modules so each section of training is completed before going to the next section This Manual is an excellent addition to any defensive tactics instructor s library Larry Smith Lt retired San Diego CA Police Department **Police Products Handbook** Tony Lesce,1990 **For Security Personnel, HANDCUFFING, 2020** Mürsel Sevindik,2020-04-15 This book covers Handcuffing issues for law enforcement officer The goal is to understand and be able to perform proper techniques of using handcuffs Handcuffs are temporary restraining devices designed to control the movements of a subject Officers may routinely use handcuffs to control restrain and transport persons Restraining devices will be applied properly and in accordance with training received so as to minimize the risk of unnecessary injury The design of handcuffs ensures that the subject s movements are controlled to reduce the risk of injury to the police officer members of the public and the subject himself The most common types of handcuffs used in law enforcement today are the traditional and hinged variety In addition officers also use plastic cuffs in some situations Handcuffs do not entirely immobilize a suspect Regardless of the type used it is imperative that officers be aware that the police style handcuff is a temporary restraining device and that its proper use and application is crucial for the safety of the officer and subject Topics and techniques presented in this book will be of both great interest and great value to trainers and students of law enforcement For Security Personnel, OFFICER SURVIVAL SKILLS, 2020 Mursel Sevindik,2020-04-05 This book covers Officer Survival Skills issues for law enforcement officer The goal is to develop the law enforcement officer s understanding of officer survival for the safe and efficient performance of their duty The majority of police officers duties become routine though the potential for danger is always present The duties of the officer require them to enforce laws and to control the illegal actions of certain citizens Survival techniques if properly applied provide the officer an opportunity to overcome the resistive behavior of subjects These techniques also provide officers with self confidence which is needed to win When an officer uses force peers the public the media the government and the world review that actions If the officer applies inappropriate force it reflects poorly on the individual and gives a non professional appearance to the entire force The officer is subject to legal limitations When the officer is faced with a violent situation it is required that he make decisions in a fraction of a second He may have to justify his actions in court Therefore proper defensive tactics training provides the officer with the tools required not only to apply the proper techniques but also to decide the proper level of force necessary to overcome resistance This will obviously enhance officer survivability insure proper performance during the situation and justification in court Topics and techniques presented in this book will be of both great interest and great value to trainers and students of law enforcement

For Security Personnel, DEFENCE and INTERVENTION, Theory and Practice, 2020 (Officer Survival Skills, Use of Force, Soft Empty Hand Control, Hard Empty Hand Control, Weapon Retention and Disarming, Handcuffing, Conducting Suspect Searches, Defensive Baton) Mürsel Sevindik, 2020-04-29 This book covers Officer Survival Skills Use of Force Soft Empty Hand Control Hard Empty Hand Control Weapon Retention and Gun Disarming Handcuffing Conducting Suspect Searches and Defensive Baton issues for law enforcement officer The most important priority of the officer is able to survive in dangerous situations These techniques provide officers self confidence which is needed to win Law enforcement officers are authorized to use a range of force options to preserve the peace prevent crimes maintain order and apprehend suspects Soft empty hand techniques are the first option of physical response used to restrain a person who is resisting Hard Empty Hand Control techniques are defined as striking techniques In some close encounters a suspect may try to grab the officer s sidearm Officers must develop a defensive awareness that their weapon can be snatched Handcuffs are temporary restraining devices designed to control the movements of a subject Body searching is a careful systematic examination of the suspect at the scene of a crime or immediately after apprehension A trained officer who is proficient in the use of the baton is better able to protect himself and is less likely to resort to the use of his firearm Topics and techniques presented in this book will be of both great interest and great value to trainers and students of law enforcement
