Aspects Of Minimal Architecture Ii Architectural Design Pt :

Minimalist Architecture Franco Bertoni, 2002-08 Minimalism as a concept was first used in the world of art to characterize the work of Donald Judd Sol Le Witt and several others Soon afterwards this creative approach began to take hold in architecture and the works of many contemporary architects are rooted in Minimalism to a greater or lesser degree This publication goes to the heart of this trend looking first at Loos Wittgenstein Mies van der Rohe and Asplund the definitive precursors of Minimalism Then the works of today s protagonists who include Tadao Ando Luis Barrag n Alberto Campo Baeza A G Fronzoni Michael Gabellini John Pawson Claudio Silvestrin Eduardo Souto Moura and Peter Zumthor are covered extensively A selection of texts contributed by the featured architects conclude the volume With a clear even austere presentation this book not only reflects its contents but provides a comprehensive overview of Minimalism one of the dominant trends in contemporary architecture *Art Index Retrospective* ,2000 *Advances in Design and Digital Communication II* Nuno Martins, Daniel Brandão, 2021-10-21 This book reports on research findings and practical lessons featuring advances in the areas of digital and interaction design graphic design and branding design education society and communication in design practice and related ones Gathering the proceedings of the 5th International Conference on Digital Design and Communication Digicom 2021 held on November 4 6 2021 in Barcelos Portugal and continuing the tradition of the previous book it describes new design strategies and solutions to foster digital communication within and between the society institutions and brands By highlighting innovative ideas and reporting on multidisciplinary projects it offers a source of inspiration for designers of all kinds including graphic and web designers UI UX and social media designers and to researchers advertisers artists and brand and corporate communication managers alike *The Rehabilitation of Historic Schools in Portugal* Sofia Aleixo, 2021-07-22 This book examines the material and immaterial values that are used and perceived in heritage educational environments that have been adapted to 21st century education needs Offering an approach to architectural conservation practice focused on the design and implementation processes it provides a post occupation evaluation of the effects of such physical actions on historic learning environments and their values A comprehensive study of architectural conservation and Theory of Change ToC is supported by an extensive literature review and personal insights from the author s everyday practice Using a selection of recently rehabilitated historic secondary schools in Portugal liceus the text presents insights into their existing cultural significance identifying the design strategies applied and assessing the short term effects of design decisions on the cultural values It demonstrates that whilst design strategies were less concerned with social values material cultural values were generally considered and preserved contributing to the enhancement of intangible values The implications of this research highlight the importance of evaluating actual effects in cultural heritage theory architectural conservation practice and heritage management policy Following worldwide investment in the rehabilitation of schools the interest in this topic has grown among architectural heritage

academics and practitioners who seek to better understand and approach these learning environments in order to achieve better outcomes The book will also be of interest to public policy makers given its emphasis on the importance of stakeholder engagement in the conservation process and in the sustainability of re using existing buildings Furthermore it will capture the attention of schools stakeholders including students parents teachers non teaching staff alumni and the local community for whom the school environment is a collective shared memory
