Despite their linguistic cognitive and social potential, many ELs who account for more than 9 percent of enrollment in grades K-12 in U.S. schools are struggling to meet the requirements for academic success, and their prospects for success in postsecondary education and in the workforce are jeopardized as a result. *Promoting the Educational Success of Children and Youth Learning English: Promising Futures* examines how evidence based on research relevant to the development of DLLs/ELs from birth to age 21 can inform education and health policies and related practices that can result in better educational outcomes. This report makes recommendations for policy, practice, and research and data collection focused on addressing the challenges in caring for and educating DLLs/ELs from birth to grade 12. **Learning Unlimited** Nicoleta Filimon, Christi Cartwright-Lacerda, 2024-11 The authors provide practical instructional strategies and resources to help multilingual students with limited or interrupted formal schooling learn and practice critical literacy skills.
