Assessing Technology Innovation in the Pla Naval Postgraduate Naval Postgraduate School, 2015-05-28 In the last 10 years China's defense capability has increasingly become the focus of military analysts as well as a driving factor in U S policy This thesis asks the question How much of Chinese military modernization counts as innovation In answering this question it defines innovation creates a standard for identifying innovation and applies this standard to the PLAN and PLAAF Historically technological innovation is either overlooked or ignored by intelligence services and recent developments by China have come as a surprise to many This thesis identifies a total of 79 instances of innovative technology fielded by the PLAN and the PLAAF since 1970 Many of these innovations like the DF 21D PL 12 and recent JY series of radars comprise weapon systems not yet developed by other nations and thus count as global level innovations China is focused on developing innovative technologies to exploit weaknesses inherent in other technologically superior forces such as those fielded by the United States in order to gain an asymmetric advantage in what Chinese strategists label a counter RMA *Assessing Technology Innovation in the Pla* Naval Postgraduate Naval Postgraduate School, 2015-12-11 In the last 10 years China's defense capability has increasingly become the focus of military analysts as well as a driving factor in U S policy This book asks the question How much of Chinese military modernization counts as innovation In answering this question it defines innovation creates a standard for identifying innovation and applies this standard to the PLAN and PLAAF Historically technological innovation is either overlooked or ignored by intelligence services and recent developments by China have come as a surprise to many This book identifies a total of 79 instances of innovative technology fielded by the PLAN and the PLAAF since 1970 Many of these innovations like the DF 21D PL 12 and recent JY series of radars comprise weapon systems not yet developed by other nations and thus count as global level innovations China is focused on developing innovative technologies to exploit weaknesses inherent in other technologically superior forces such as those fielded by the United States in order to gain an asymmetric advantage in what Chinese strategists label a counter RMA *Forging China's Military Might* Tai Ming Cheung, 2014-02-24 His collection of nine essays offers a comprehensive and insightful assessment of the Chinese defense science and technology S civil military integration China's defense innovation system and China's place in the global defense economy Case studies look in detail at the Chinese space and missile industry Constitutes high quality cutting edge research on China's defense industries It should enjoy broad appeal among academics policy makers security analysts and business people in countries around the world Andrew Scobell RAND Corporation *Forging China's Military Might* belongs in any political science shelf interested in China's issues and international security and considers the nature of China's emergence as a world power Midwest Book Review *China's Military Power: A Net Assessment*, 2015-01-15 This book is a structured net assessment of China's military power by a reputed and well known Indian military analyst The growth of Chinese military power has been examined with emphasis on how it primarily affects India The book analyses how

India must respond It has an exhaustively researched section on how the Chinese PLA has performed in actual combat since 1949 and a detailed analysis of the evolution of China's military doctrines and strategic Culture The most dangerous for India is the exponential growth in the Chinese Airpower PLAAF China has already changed Asia's balance of power Assessing Service Quality Peter Hernon, Ellen Altman, 2010-01-19 This classic book is brought fully up to date as Hernon and Altman integrate the use of technology into the customer experience They offer solid practical ideas for developing a customer service plan that meets the library's customer focused mission vision and goals challenging librarians to think about customer service in new ways *Research Handbook on the Arms Trade* Andrew T.H. Tan, 2020-12-25 This comprehensive Research Handbook examines the key drivers of the arms trade mapping the main trends in Asia Europe the Middle East Africa and Latin America It also explores the principal defence markets internationally including the US China India Russia and the UK in greater detail Cold Rivals Evan S. Medeiros, 2023 Cold Rivals brings together a distinguished group of scholars from the United States and China to examine the new era of strategic competition in US China relations The two countries are now competitors locked in a long term rivalry but how volatile the rivalry will become is still to be determined The book explores not only the historical roots and contemporary foreign policy aspects of this era but the volume also looks at the economic military and technological arenas of US China strategic competition In doing so this volume highlights important differences in US and Chinese perspectives A final section of the volume explores future scenarios for the relationship from different perspectives but with all of them coming to the sobering conclusion about a future marked by expanding differences growing tensions economic disengagement and pressures for a global competition This policy relevant book provides a comprehensive overview of US China strategic competition and reinvigorates thinking about how to avoid reaching a crisis point **Report to Congress of the U.S.-China Economic and Security Review Commission** U.S.-China Economic and Security Review Commission, 2012 **Innovate to Dominate** Tai Ming Cheung, 2022-08-15 In *Innovate to Dominate* Tai Ming Cheung offers insight into why how and whether China will overtake the United States to become the world's preeminent technological and security power This examination of the means and ends of China's quest for techno security supremacy is required reading for anyone looking for clues as to the long term direction of the global order The techno security domain Cheung argues is where national security innovation and economic development converge and it has become the center of power and prosperity in the twenty first century China's paramount leader Xi Jinping recognizes that effectively harnessing the complex interactions among security innovation and development is essential in enabling China to compete for global dominance Cheung offers a richly detailed account of how China is building a potent techno security state In *Innovate to Dominate* he takes readers from the strategic vision guiding this transformation to the nuts and bolts of policy implementation The state led top down mobilizational model that China is pursuing has been a winning formula so far but the sternest test is ahead as China begins to compete head to head with the United States and

aims to surpass its archival by mid century if not sooner Innovate to Dominate is a timely and analytically rigorous examination of the key strategies guiding China's transformation of its capabilities in the national technological military and security spheres and how this is taking place Cheung authoritatively addresses the burning questions being asked in capitals around the world Can China become the dominant global techno security power And if so when *Defence Innovation and the 4th Industrial Revolution* Michael Raska, Katarzyna Zysk, Ian Bowers, 2022-03-30 This book examines the implications of disruptive technologies of the Fourth Industrial Revolution 4IR on military innovation and the use of force It provides an in depth understanding of how both large and small militaries are seeking to leverage 4IR emerging technologies and the effects such technologies may have on future conflicts The 4th Industrial Revolution 4IR the confluence of disruptive changes brought by emerging technologies such as artificial intelligence robotics nanotechnologies and autonomous systems has a profound impact on the direction and character of military innovation and use of force The core themes in this edited volume reflect on the position of emerging technologies in the context of previous Revolutions in Military Affairs compare how large resource rich states US China Russia and small resource limited states Israel Sweden Norway are adopting and integrating novel technologies and explore the difference between various innovation and adaptation models The book also examines the operational implications of emerging technologies in potential flashpoints such as the South China Sea and the Baltic Sea Written by a group of international scholars this book uncovers the varying 4IR defence innovation trajectories enablers and constraints in pursuing military technological advantages that will shape the character of future conflicts The chapters in this book were originally published as a special issue of the Journal of Strategic Studies
