Islam and Assisted Reproductive Technologies Marcia C. Inhorn, Soraya Tremayne, 2012-07-01 How and to what extent have Islamic legal scholars and Middle Eastern lawmakers as well as Middle Eastern Muslim physicians and patients grappled with the complex bioethical legal and social issues that are raised in the process of attempting to conceive life in the face of infertility This path breaking volume explores the influence of Islamic attitudes on Assisted Reproductive Technologies ARTs and reveals the variations in both the Islamic jurisprudence and the cultural responses to ARTs

Assisted Reproductive Technologies in the Third Phase Kate Hampshire, Bob Simpson, 2015-09-01 Following the birth of the first test tube baby in 1978 Assisted Reproductive Technologies became available to a small number of people in high income countries able to afford the cost of private treatment a period seen as the First Phase of ARTs In the Second Phase these treatments became increasingly available to cosmopolitan global elites Today this picture is changing albeit slowly and unevenly as ARTs are becoming more widely available While for many accessing infertility treatments remains a dream these are beginning to be viewed as a standard part of reproductive healthcare and family planning This volume highlights this Third Phase the opening up of ARTs to new constituencies in terms of ethnicity geography education and class

South Asian Tissue Economies Jacob Copeman, 2015-09-07 Questions of the social implications of biotechnology and biological

exchange the extraction of human tissues such as blood skin and organs for testing storage and or distribution for therapeutic or research purposes have recently been brought strongly to the analytical fore across the social sciences This book focuses on the variegated biopolitical milieus of this kind of exchange specifically in South Asia It ranges widely theoretically thematically and regionally in examining South Asian variants of and engagements with diverse modes of biological exchange caste gender and blood donation in Pakistan DNA testing amongst a former Untouchable community in south India and amongst diasporic Indians in Houston Texas body cadaveric donation in India the use of fake blood in Bangladeshi cinema the mobilisation of blood hearts and ketones to protest the Indian government s failure to provide redress or care to victims of the 1984 Bhopal industrial disaster and blood based political portraits and petitions in south India In considering this complex of issues this book extends the parameters of classic accounts of the role of substance transactions in the production of South Asian personhood into investigations of the biopolitics and economies of substance that shape people and communities in diverse parts of the subcontinent describing findings that illuminate how local responses to the implementation of various kinds of tissue economy both reflect and also transform socio cultural values in South Asia This book was published as a special issue of Contemporary South Asia

International Handbook on Gender and Demographic Processes Nancy E. Riley,Jan Brunson,2018-05-02 This handbook presents a comprehensive and up to date overview of gender in demography addressing the many different influences of gender that arise from or influence demographic processes It collects in one volume the key issues and perspectives in this area whereby demography is broadly defined The purpose in casting a wide net is to cover the range of work being done within demography but at the same time to open up our perspectives to neighboring fields to encourage better conversations around these issues The chapters in this handbook carefully document definition and measurement issues and take up parts of the demographic picture and focus on how gender plays a role in outcomes In other cases gender often plays a cross cutting role in social processes rather than having a single or easily distinguishable role it often combines with other social institutions and even other statuses and inequalities to affect outcomes Thus a key factor in this volume is how gender interacts with race ethnicity class nationality and sexuality in any demographic setting While each section contains chapters that are broad overviews of the current state of knowledge and behavior the handbook also includes chapters that focus on specific cultures or events in order to examine how gender operates in a particular circumstance

Textbook of Human Reproductive Genetics Stéphane Viville,Karen D. Sermon,2023-01-05 A basic understanding of human genetics is vital for all those working in the field of assisted human reproduction Genetic makeup can hamper reproduction and insight into this is making genetic diagnosis and counselling increasingly important This fully updated textbook continues the clear structure of the original edition beginning with a chapter on the basics of genetics and cytogenetics Genetic causes of infertility and the effect of epigenetics and transposons on fertility are discussed in detail Several new chapters are included in this edition reflecting the advances of the field

including preconception genetic analysis and screening in IVF and mitochondrial genetics Combining genetics reproductive biology and medicine this is an essential text for practitioners in reproductive medicine and geneticists involved in the field looking to improve their knowledge of the subject and provide outstanding patient care **Reproductive Justice** Joan C. Chrisler, 2012-02-13 Every woman in the world has the right to control her own body plan her family receive good quality medical care and give birth to a healthy baby This book takes a comprehensive look at the status of women's reproductive rights from a transnational human rights perspective Reproductive justice is a relatively new term that underscores the fact that the existence of reproductive rights does not mean that women are able to exercise those rights For women unable to exercise their rights for any number of reasons a lack of available services where they live lack of money or health insurance to pay for services being forbidden by family members to seek services the reality is they have no choices to make and possess little if any control over their own bodies regardless of what the government states their rights are Reproductive Justice A Global Concern provides a comprehensive and integrated examination of the status of reproductive rights for the world's women covering a wide range of reproductive rights issues Topics include women's rights to determine their own sexuality and choose their own partners rape sex trafficking fertility treatments and other assisted reproductive technologies contraception and abortion maternal and infant mortality postpartum support and breastfeeding
