Better Day Coming Blacks And Equality 1890 :

Better Day Coming Adam Fairclough, 2001 Traces the history of the African American struggle for racial equality from the anti lynching campaign launched by Ida B Wells in the 1890s through the leadership of Jesse Jackson focusing on events in the American South The debate on black civil rights in America Kevern Verney, 2024-01-16 This book examines the historiography of the African American freedom struggle from the 1890s to the present It considers how and why the study of African American history developed from being a marginalized subject in American universities and colleges at the start of the twentieth century to become one of the most extensively researched fields in American history today There is analysis of the changing scholarly interpretations of African American leaders from Booker T Washington through to Barack Obama The impact and significance of the leading civil rights organizations are assessed as well as the white segregationists who opposed them and the civil rights policies of presidential administrations from Woodrow Wilson to Donald Trump The civil rights struggle is also discussed in the context of wider political social and economic changes in the United States and developments in popular culture

To Face Down Dixie James O. Heath, 2017-12-14 In an era during which the United States Supreme Court handed down some of its most important decisions including Brown v Board of Education 1954 Baker v Carr 1962 and Miranda v Arizona 1966 three senators from South Carolina Olin Johnston Strom Thurmond and Ernest Fritz Hollings waged war on the court s progressive agenda by targeting the federal judicial nominations process To Face Down Dixie explores these senators role in some of the most contentious confirmation battles in recent history including those of Thurgood Marshall Abe Fortas and Clement Haynsworth In scrutinizing Supreme Court nominees and attempting to restrict the power of the nine justices of the court these senators defied not only the leadership of the Democratic Party but also the Senate traditions of hierarchy and seniority Along with South Carolina s conservative segregationist political establishment which maintained ironclad control over the state s legislature Johnston Thurmond and Hollings effectively drowned out the many moderate voices in South Carolina that remained critical of their obstructionism thus advancing their own conservative credentials and boosting their chances of reelection To Face Down Dixie examines for the first time the central role that South Carolina played in turning Supreme Court nomination hearings into confrontational and political public events James O Heath argues that the state s war on the court concealed its antipathy to civil rights by using the confirmation process to challenge the court s function as the final arbiter of policy on questions relating to law and order obscenity communist subversion and school prayer Heath s study illustrates that while South Carolina s history of massive resistance is less prominent than that of other states its politicians acted as persistent antagonists in the complex and dramatic debates in the U S Senate during the era of civil rights

An African American Dilemma Zoë Burkholder, 2021 Presenting a revealing historical perspective on today s charged schooling choices An African American Dilemma illuminates the tensions between school integration and separation that have shaped the long history of black struggles for equal education and civil rights in

Winning the War for Democracy David Lucander, 2014-09-15 Scholars regard the March on Washington Movement MOWM as a forerunner of the postwar Civil Rights movement Led by the charismatic A Philip Randolph MOWM scored an early victory when it forced the Roosevelt administration to issue a landmark executive order that prohibited defense contractors from practicing racial discrimination *Winning the War for Democracy* The March on Washington Movement 1941 1946 recalls that triumph but also looks beyond Randolph and the MOWM's national leadership to focus on the organization's evolution and actions at the local level Using the personal papers of previously unheralded MOWM members such as T D McNeal internal government documents from the Roosevelt administration and other primary sources David Lucander highlights how local affiliates fighting for a double victory against fascism and racism helped the national MOWM accrue the political capital it needed to effect change Lucander details the efforts of grassroots organizers to implement MOWM's program of empowering African Americans via meetings and marches at defense plants and government buildings and in particular focuses on the contributions of women activists like Layle Lane E Pauline Myers and Anna Arnold Hedgeman Throughout he shows how local activities often diverged from policies laid out at MOWM's national office and how grassroots participants on both sides ignored the rivalry between Randolph and the leadership of the NAACP to align with one another on the ground

Long Is the Way and Hard Kevern Verney, Lee Sartain, Adam Fairclough, 2009-11 Celebrating its one hundredth anniversary in February 2009 the National Association for the Advancement of Colored People NAACP has been the leading and best known African American civil rights organization in the United States It has played a major and at times decisive role in most of the important developments in the twentieth century civil rights struggle Drawing on original and previously unpublished scholarship from leading researchers in the United States Britain and Europe this important collection of sixteen original essays offers new and invaluable insights into the work and achievements of the association The first part of the book offers challenging reappraisals of two of the NAACP's best known national spokespersons Walter White and Roy Wilkins Other essays analyze the association's cultural initiatives and the key role played by its public relations campaigns in the mid 1950s to counter segregationist propaganda and win over the hearts and minds of American public opinion in the wake of the NAACP's landmark legal victory in *Brown v Board of Education* Others provide thought provoking accounts of the association's complex and difficult relationship with Martin Luther King the post World War II Civil Rights movement and Black Power radicals of the 1960s The second part of the collection focuses on the work of the NAACP at state city and local levels examining its grassroots organization throughout

the nation from Chicago Cleveland and Detroit in the North to California in the West as well as states across the South including Virginia Arkansas Alabama Louisiana and Texas Providing detailed and fascinating information on hitherto little explored aspects of the association s work these studies complement the previous essays by demonstrating the impact national initiatives had on local activists and analyzing the often strained relations between the NAACP national office in New York and its regional branches
