Better Meetings Save 100 Days Of Your Life Through Better Meetings:

Better Meetings Ian P Johnson, 2013-04-30 A thousand days of meetings is your fate if you have an office job that averages one meeting a day for the whole of your career There will be more meetings than that if you get promoted The further up the corporate tree you climb the more of your time will be spent in various types of meetings until the most agile those with prehensile tails who reach the very canopy of the tree get to spend all day in meetings It s a sobering thought and yet very few people spend any time learning about meetings or even attending training courses about meetings which would in effect be meetings about meetings The people who run the training courses would probably even attend meetings about meetings about meetings As meetings are so common you d think that there would be a degree in meetings or it would at least be taught in schools but no there is almost nothing out there by way of training or education True there are a few courses about not looking at your feet while delivering presentations or even courses in facilitation but I ve never heard of one about the art of planning organising booking participating enduring chairing minuting and ending a successful meeting That s what this book is about If it helps to make meetings more efficient by reducing the number reducing the length of meetings making them more productive and harmonious fun even then it will be the most valuable book you ever read if it saves a few productive hours If I can save 10% of your time in meetings then this book is worth 100 days of your working life if you read it early enough in your career That s half your salary for a year You should write me a cheque Go on get your cheque book out
