Between Two Unions Europeanisation And Scottish Devolution The Devolution Series:

Between two unions Paolo Dardanelli, 2013-07-19 This book is the first in depth comparative study of Scottish devolution and the first to analyse the impact of the European dimension With focus on the periods leading up to the referendums in 1979 and 1997 it investigates positions and strategies of political parties and interest groups and how these influenced constitutional preferences at mass level and ultimately the referendum results Based on rigorous analysis of an extensive body of quantitative and qualitative sources it builds a ground breaking argument that challenges the widespread thesis that support for devolution was a consequence of Conservative rule between 1979 and 1997 It shows that the decisive factors were changing attitudes to independence and the role of the European dimension in shaping them The book is essential reading for students and scholars of British European and comparative politics from 3rd year courses upwards and will also appeal to lay readers interested in contemporary affairs

Beyond devolution and decentralisation Alistair Cole, 2013-07-19 Beyond devolution and decentralisation compares the politics policies and polity building dynamics of devolution in Wales and decentralisation in the French region of Brittany Empirically the book draws conclusions from in depth fieldwork within two regions and reports the findings of a comparative public opinion survey Theoretically it contributes towards our understanding of the comparative study of regions Perhaps most impressive is how the case studies generally are based on but also cast light back to the nuanced theoretical framework on regional capacity established at the outset The book uncovers the dynamics of devolution in Wales and decentralisation in Brittany through extensive face to face interviews over 200 interviews were carried out from 2001 to 2004 a formative stage in the development of the devolved institutions in Wales and a period of expectation in Brittany as well The book will be of interest to the professional research community and to practitioners in Britain France and beyond as well as to students on comparative politics British Welsh politics French politics European studies and public policy courses

Devolution and Electoral Politics Dan Hough, Charlie Jeffery, 2006-05-28 This book presents a comparative perspective on the new dynamics of electoral competition following devolution to Scotland and Wales It brings together leading experts on elections political parties and regional politics from Britain Europe and North America to explore the dynamics and interactions of national and regional arenas of electoral competition

Handbook on Decentralization, Devolution and the State Lago, Ignacio, 2021-10-19 Taking a multidisciplinary approach to the dynamics of political and economic decentralization in contemporary regimes this comprehensive Handbook offers a critical examination of how the decentralization of governance affects citizen well being

The Palgrave Handbook of European Referendums Julie Smith, 2021-03-02 This handbook provides an empirically rich analysis of referendums in Europe from the end of the Second World War to the present It addresses a range of perennial theoretical and legal questions that face policy makers when they offer citizens the chance to take or influence decisions by referendum not least whether to accept the will of the people Taking a multi disciplinary approach drawing on historical

philosophical and political science perspectives the book includes a contextual section on the history of referendums the theoretical questions underpinning their use and on constitutional and legal questions about the use of referendums The empirical sections are divided into those referendums that focus on domestic issues such as constitutional matters or questions of social policy and those related to the European Union including membership referendums and treaty ratification

Communication and Conflict Transformation through Local, Regional, and Global Engagement Peter M. Kellett, Thomas G. Matyók, 2016-12-13 Central to a transformational approach to conflict is the idea that conflicts must be viewed as embedded within broader relational patterns and social and discursive structures and must be addressed as such This implies the need for systemic change at generative levels in order to create genuine transformation at the level of particular conflicts Central also to this book is the idea that the origins of transformation can be momentary or situational small scale or micro level as well as bigger and more systemic or macro level Micro level changes involve shifts and meaningful changes in communication and related patterns that are created in communication between people Such transformative changes can radiate out into more systemic levels and systemic transformative changes can radiate inwards to more micro levels This book engages this transformative framework Within this framework this book pulls together current work that epitomizes and highlights the contribution of communication scholarship and communication centered approaches to conflict transformation in local community regional environmental and global conflicts in various parts of the world The resulting volume presents an engaging mix of scholarly chapters think pieces and experiences from the field of practice The book embraces a wide variety of theoretical and methodological approaches as well as transformative techniques and processes including narrative dialogic critical cultural linguistic conversation analytic discourse analytic and rhetorical This book makes a valuable contribution to the ongoing dialogue across and between disciplines and people on how to transform conflicts creatively sustainably and ethically

The European Union and the Rise of Regionalist Parties Seth Kincaid Jolly, 2015-08-27 Using a cross national quantitative study and a detailed case study of the pro independence Scottish National Party demonstrates that supranational integration and subnational fragmentation are related in theoretical and predictable ways Posits that the EU makes smaller states more viable and politically attractive by diminishing the relative economic and political advantages of larger sized states

The UK Challenge to Europeanization Karine Tournier-Sol, 2016-04-29 This timely contribution pulls no punches and views the UK as institutionally Eurosceptic across politics and society from the press to defence It represents a rich and original contribution to the emerging field of Eurosceptic studies and a key contribution to this important issue

Towards a regional political class? Klaus Stolz, 2013-07-19 Focussing on professional politicians Klaus Stolz investigates the interrelationship between political career patterns and political institutions in two of the most widely discussed cases of regionalism Catalonia and Scotland The study deals with two different yet closely related sets of questions Firstly how do professional politicians pursue their careers in the

regional context And secondly how do they shape and reshape the political institutions in which they pursue these careers The monograph is based on extensive empirical research including a comprehensive data set on the careers of Catalan and Scottish parliamentarians systematic surveys of regional representatives as well as in depth interviews of a wide range of politicians and experts in both regions Exploring the effects of political professionalisation on regional democracy Stolz goes way beyond traditional studies of regionalism and decentralization while his focus on the regional career arena introduces a much needed territorial dimension to the study of political careers Rich original data innovative theoretical concepts and a strictly comparative approach are the basis for a study that considerably deepens and enhances our understanding of the tremendous political changes both Catalonia and Scotland are undergoing Thus the book is of interest to the still growing number of scholars concerned with devolution in the UK the Spanish autonomous communities as well as to those interested in regional politics and regionalisation in general Furthermore its theoretical focus makes it highly relevant for scholars working on political careers political professionalisation and democratic theory

Using Europe: territorial party strategies in a multi-level system Eve Hepburn, 2013-07-19 This book explores how regional political parties use Europe to advance their territorial projects in times of rapid state restructuring It examines the ways in which decentralization and supranational integration have encouraged regional parties to pursue their strategies across multiple territorial levels This book constitutes the first attempt to unravel the complexities of how nationalist and statewide parties manoeuvre around the twin issues of European integration and decentralization and exploit the shifting linkages within multi level political systems In a detailed comparative examination of three cases Scotland Bavaria and Sardinia over a thirty year period the book explores how integration has altered the nature of territorial party competition and identifies the limits of Europe for territorial projects In addressing these issues this work moves beyond present scholarship on multi level governance to explain the diversity of regional responses to Europe By providing important new insights and empirical research on the conduct of territorial party politics and an innovative model of territorial mobilization in Europe this book will be of great interest to students and scholars of comparative politics European studies regionalism and federalism political parties and devolution
