Bringing the Dark Past to Light John-Paul Himka,Joanna Beata Michlic,2019-06-12 Despite the Holocaust's profound impact on the history of Eastern Europe the communist regimes successfully repressed public discourse about and memory of this tragedy Since the collapse of communism in 1989 however this has changed Not only has a wealth of archival sources become available but there have also been oral history projects and interviews recording the testimonies of eyewitnesses who experienced the Holocaust as children and young adults Recent political social and cultural developments have facilitated a more nuanced and complex understanding of the continuities and discontinuities in representations of the Holocaust People are beginning to realize the significant role that memory of Holocaust plays in contemporary discussions of national identity in Eastern Europe This volume of original essays explores the memory of the Holocaust and the Jewish past in postcommunist Eastern Europe Devoting space to every postcommunist country the essays in **Bringing the Dark Past to Light** explore how the memory of the dark pasts of Eastern European nations is being recollected and reworked In addition it examines how this memory shapes the collective identities and the social identity of ethnic and national minorities Memory of the Holocaust has practical implications regarding the current development of national cultures and international relationships

Religion, Ethnonationalism, and Antisemitism in the Era of the Two World Wars Kevin P. Spicer,Rebecca Carter-Chand,2022-01-15 In the wake of the devastating First World War leaders of the victorious powers reconfigured the European continent resulting in new understandings of nation state and citizenship Religious identity symbols and practice became tools for politicians and church leaders alike to appropriate as instruments to define national belonging often to the detriment of those outside the faith tradition Religion *Ethnonationalism and Antisemitism in the Era of the Two World Wars* places the interaction between religion and ethnonationalism a particular articulation of nationalism based upon an imagined ethnic community at the centre of its analysis offering a new lens through which to analyze how nationalism ethnicity and race became markers of inclusion and exclusion Those who did not embrace the same ethnonationalist vision faced ostracization and persecution with Jews experiencing pervasive exclusion and violence as centuries of antisemitic Christian rhetoric intertwined with right wing nationalist extremism The thread of antisemitism as a manifestation of ethnonationalism is woven through each of the essays along with the ways in which individuals sought to critique religious ethnonationalism and the violence it inspired With case

studies from the United States France Italy Germany Finland Croatia Ukraine and Romania Religion Ethnonationalism and Antisemitism in the Era of the Two World Wars thoroughly explores the confluence of religion race ethnicity and antisemitism that led to the annihilative destruction of the Second World War and the Holocaust challenging readers to identify and confront the inherent dangers of narrowly defined ideologies

Balkan Smoke Mary C. Neuburger, 2012-10-04 This fascinating book explores the history of tobacco and tobacco culture in Bulgaria from the mid 19th century when the country became partially and then fully independent from the Ottoman Empire to the postcommunist present Neuburger argues convincingly that smoking and the production of tobacco products played an important if not the key part in Bulgaria's political economic and cultural modernization during this period Summing Up Highly recommended Choice In *Balkan Smoke* Mary C Neuburger leads readers along the Bulgarian Ottoman caravan routes and into the coffeehouses of Istanbul and Sofia She reveals how a remote country was drawn into global economic networks through tobacco production and consumption and in the process became modern In writing the life of tobacco in Bulgaria from the late Ottoman period through the years of Communist rule Neuburger gives us much more than the cultural history of a commodity she provides a fresh perspective on the genesis of modern Bulgaria itself The tobacco trade comes to shape most of Bulgaria's international relations it drew Bulgaria into its fateful alliance with Nazi Germany and in the postwar period Bulgaria was the primary supplier of smokes the famed Bulgarian Gold for the USSR and its satellites By the late 1960s Bulgaria was the number one exporter of tobacco in the

world with roughly one eighth of its population involved in production Through the pages of this book we visit the places where tobacco is grown and meet the merchants the workers and the peasant growers most of whom are Muslim by the postwar period Along the way we learn how smoking and anti smoking impulses influenced perceptions of luxury and necessity questions of novelty imitation value taste and gender based respectability While the scope is often global Neuburger also explores the politics of tobacco within Bulgaria Among the book s surprises are the ways in which conflicts over the tobacco industry and smoking help to clarify the forbidding quagmire of Bulgarian politics
