Business Communications:

Business Communications Amith Kottayi, Neha Sharma, Vandana Mishra Chaturvedi, Kishor Mhaske, Aarti Pandirkar, The book aims at introducing our students to the amazing world of Business Communication. The focus of the book lies on familiarising the students to the intricacies of day to day communications at the workplace. We also aim at getting the students to transform from well meaning individuals to industry smart executives raring to go places climbing the corporate ladder to success one rung at a time.

Business Communications William C. Himstreet, Wayne Murlin Baty, 1984 For an undergraduate or possibly graduate course in introductory business communication found in departments of business including marketing management and information systems business education English and communications

Business Communications Speedy Publishing, 2014-11-26 Business communication is the method used by business students to express how the work ladder works in the corporate environment and in business structures. Many business students skip this part of the industry which makes them a lot less appealing to work with after trying them out for a day or two. Studying the communications study guide is very important to keep in touch with how to approach any colleague or boss of yours with an idea, a proposal or any thing that may come useful for the company. If the employee did not know how to explain their ideas to their bosses there won't ever be any room for promotions.

Intercultural and International Business

Communications Juan Carlos Palmer, Juan Carlos Palmer-Silveira, Miguel F. Ruiz-Garrido, Inmaculada Fortanet-Gómez, 2006 This volume originates from the editors' interest in one of the most relevant fields of research these days: Intercultural and International Business Communication. The needs of the business world to communicate effectively at an international level in order to overcome language differences have proved to be a fascinating topic for many scholars. International business discourse is culturally situated and therefore context dependent and all three discourse, culture and context play a key role in the communication process. The present contributions analyse this topic under the perspective of theory, research and teaching. Different scholars have offered their views on the subject, presenting contributions on different areas related to business communication all over the world.
