Counseling Adolescents Through Loss, Grief, and Trauma Pamela A. Malone, 2016-02-19 Loss grief and trauma come into the lives of adolescents in many forms and with more frequency than the adults in their lives may realize Assessing the depth and nature of their emotions can be difficult adolescents are typically reluctant to show strong emotions and can be difficult to reach particularly when they experience the untimely death of a loved one How best to work with a young person who may have trouble communicating their emotions even under the best of circumstances And what if he or she has learned about the death of a loved one or classmate from another peer rather than a family member What about gender differences and the influence of culture and family What role do cell phones text messaging and technologies such as Facebook play in the adolescent grief experience Adolescents use of technology creates unlimited access to friends support systems and information but news that spreads quickly without buffering effects can intensify the strength of the adolescent grief responses Counseling Adolescents Through Loss Grief and Trauma not only examines these issues it also provides clinicians with a wealth of resources and time tested therapeutic activities that are sure to become an indispensable part of any clinician s practice
