Atlas d'acupuncture Claudia Focks, Ulrich März, Ingolf Hosbach, 2024-05-28 Claudia Focks Avec la collaboration de Ulrich März et Ingolf Hosbach. Ouvrage de référence. L'Atlas d'acupuncture présente de façon exhaustive les douze méridiens principaux, les points des huit merveilleux vaisseaux tout comme de nombreux points hors méridiens. Chaque point est présenté selon le même modèle permettant de saisir d'un seul regard sur une même page les informations cliniques les plus importantes. Les très nombreuses illustrations sont composées de photographies cliniques de schémas ainsi que de pictogrammes mettant en évidence l'angle et la profondeur d'insertion de l'aiguille tout comme des alertes qu'il s'agisse d'éviter des organes ou une ponction douloureuse. L'état de la recherche scientifique a également été mis à jour, tenant compte des dernières données sur l'acupuncture et son efficacité. L'Atlas d'acupuncture en dressant un panorama complet de cette pratique constitue un ouvrage incontournable pour les acupuncteurs qu'ils soient confirmés ou en formation.

Circuits and Shen: Models of the evolution of consciousness and Chinese medicine Douglas S.

Wingate, 2016-12-31 Every individual develops physically and psychologically through distinct stages of life. With each stage grows a wider perspective of self and the world around us. In *Circuits and Shen*, models of the evolution of consciousness and Chinese medicine, the spectrum of human consciousness is explored from the view of the eight circuit model of the brain and the holonomic theory of development. It is shown how these relate to brain development, psychoneuroendocrinology and holding patterns of the fascial networks throughout the body as well as Eastern subtle body systems. Utilizing this information, it becomes possible to lay out a systematic means of informing Chinese medical practitioners and bodyworkers in approaches aimed at treating negative imprints, psychological impacts or physical illnesses that may develop out of each stage.
