Hunnicut, Richard Twine, Kenneth Mentor, 2024-11-12 This book grapples with multispecies violent exploitations embedded in corridors of power within the animal industrial complex A IC The A IC is a useful framework for understanding how exploitative human animal relations are central to capitalist relations and profit accumulation A IC related violence killing animals for economic gain has a ripple effect which results in profound consequences for humans as well This collection of international scholarship explores topics as varied as how A IC related violence is reproduced and sustained through rapidly changing discursive strategies ideological architecture and particular cultural forms that elide and legitimize animal cruelty Several chapters expose collusion between governments corporations and academia as central to maintaining dominance of A IC related violence Other scholars explore the trouble with making the conditions of meat production visible of de fetishizing meat commodities The scholarship critically explores dynamic components of an apparatus that enables A IC related violence and harm but is situated within the capitalist order and charts A IC related violence as the key profit generating practice in select domains of the A IC The book unmask inherent cruelties in a proliferation of social forms that ultimately reflect a socioeconomic system that centralizes capitalist life characterized by endless growth competitiveness and profligate consumption This is essential reading for those engaged in critical criminology green criminology violence studies
