Covid-19 Pandemic And The Migrant Population In Southeast Asia: Vaccine, Diplomacy And Disparity Akm Ahsan Ullah, Diotima Chatteraj, 2022-10-21 The COVID 19 pandemic has impacted about 1 billion migrants both international and domestic in a variety of ways and this book demonstrates how COVID 19 has widened the gaps between citizens non migrant and migrant populations in terms of income job retention freedom of movement vaccine etc While there is an emerging literature studying the impacts of COVID 19 on migration the situation in Southeast Asia has not received much scholarly attention This book fills the literature gap by studying the experiences of migrants and citizens in Brunei Malaysia and Singapore and highlighting how the pandemic has exacerbated inequalities between and within the groups These three countries are studied due to their high reliance of migrants in key economic sectors Findings in this volume are derived from a qualitative approach complemented by secondary data sources This book is appropriate for undergraduate and postgraduate students of population studies epidemiology political science public policy and administration international relations anthropology psychology sociology and migration and refugee studies Migration and labour scholars benefit from the nuanced comprehension about how a pandemic could cause a schism between migrants and the population at large Policymakers may consider the proposed recommendations in the book to improve the migration

situation *Principles of Social Research Methodology* M. Rezaul Islam, Niaz Ahmed Khan, Rajendra Baikady, 2022-10-26
This book is a definitive comprehensive understanding to social science research methodology. It covers both qualitative and quantitative approaches. The book covers the entire research process beginning with the conception of the research problem to publication of findings. The text combines theory and practical application to familiarize the reader with the logic of research design, the logic and techniques of data analysis, and the fundamentals and implications of various data collection techniques. Organized in seven sections and easy to read chapters, the text emphasizes the importance of clearly defined research questions and well-constructed practical explanations and illustrations. A key contribution to the methodology literature, the book is an authoritative resource for policymakers, practitioners, graduate and advanced research students, and educators in all social science disciplines.

The Migration Myth in Policy and Practice AKM Ahsan Ullah, Md Shahidul Haque, 2020-01-01
This book investigates the long-term impact of migration on development, engaging in a thorough analysis of the pertinent factors in migration. Migration scholars and stakeholders have long placed emphasis on the necessity of migration for development. At the heart of this book is the question: Has migration made development necessary, or is it the other way around? While existing literature is predominantly occupied with positive impressions about the migration-development nexus, this book challenges associated pervasive generalizations about the impact of migration, indicating that migration has not impacted all regions equally. This volume thus grapples with the different extents to which migration has impacted development by delving into the social costs that migrants often pay in the long run. With empirical support, this book proffers that some countries are becoming over-dependent on migration. An excellent resource for both policymakers working on migration policy and scholars in international relations, migration and development studies, this book presents a range of innovative ideas in relation to the remittance-development nexus.
