Assisted Suicide Theory And Practice In Elective Death:

Assisted Suicide C. G. Prado, S. J. Taylor, 1999-06 No Marketing Blurb *Assisted Suicide* C. G. Prado, 2000 When it became possible to extend the dying process it became necessary to decide when to stop doing so because of the enormous personal and social costs But perspectives on assisted suicide vary greatly Physicians see it as a medical issue jurists as a legal issue philosophers as a moral issue and the media as a political issue These original essays show how these perspectives shape the ongoing debate Published in English *A Liberal Catholic Bioethics* James F. Drane, 2010 *A Liberal Catholic Bioethics* opens a new dialogue between Christian reasoning and belief and secular positions in bioethics The well documented book covers in detail internal and external debates and positions of Roman Catholic theology and hierarchy issues of contraception and abortion palliative care and euthanasia caring humanely for the demented the use and abuse of modern technology in medicine The doctrine of Papal infallibility is identified as a main reason in hindering and suppressing a dialogue within the church with the faithful and with other religious and humanist positions Were the Borgia Popes infallible was Pope Urban infallible when he condemned Galileo the author asks He thus carries the debate far beyond specific bioethics issues towards a more humane medicine and culture ***Coping with Choices to Die*** C. G.

Prado, 2010-11-01 This book examines the reactions of the friends and family of those who elect to die due to terminal illness These surviving spouses partners relatives and friends in addition to coping with the death of a loved one must also deal with the loved one's decision to die thus severing the relationship C G Prado examines how reactions to elective death are influenced by cultural influences and beliefs particularly those related to life death and the possibility of an afterlife Understanding the role of these cultural influences on the grieving processes of survivors is a crucial step in allowing them to accept both intellectually and emotionally the finality of elective death and to deal with the decision of their loved one

Soul, Self, and Society Edward L. Rubin, 2015 Morality is not declining in the modern world Instead a new morality is replacing the previous one Centered on individual self fulfillment and linked to administrative government it permits things the old morality forbid like sex for pleasure but forbids things the old morality allowed like intolerance and equality of opportunity *The Value of Suicide* Eric v.d. Luft, 2012-12-05 Philosophical examination of the ontology and ethics of suicide i.e. what suicide is from the perspective of being and what the effects of suicide are in the world when it is morally permitted

Physician-assisted Suicide Gail N. Hawkins, 2002 Advocates of physician assisted suicide insist that terminally ill individuals should have the right to choose when to end their suffering Opponents respond that if the practice becomes acceptable society will pressure patients into choosing death instead of providing them with quality end of life care This insightful anthology examines the debate over whether medical personnel should be involved in hastening the death of the terminally ill *Ruminations: Selected Philosophical, Historical, and Ideological Papers, Volume 1, Part 2. The Finite* Eric v.d. Luft, 2020-09-13 Since the 1970s I have pursued three separate but overlapping and sometimes simultaneous careers 1

philosopher writer teacher historian of the long nineteenth century 1789 1914 2 editor translator photographer publisher biographer encyclopedist 3 cataloging librarian rare books and special collections librarian historian of medicine Somehow these three vocations have garnered me some acclaim even an entry in Who's Who in America Each of them has resulted in some published or presented works Because these works have been scattered in a wide variety of venues some of which have gone out of print or have otherwise become generally unavailable and of course with the oral presentations being gone as soon as they are given I have thought it wise to select epitomize and bring them together in one place here Thus what follows in these volumes is what I consider to be the most important of my shorter works All translations are my own unless otherwise indicated

Walking the Tightrope of Faith ,2023-12-28 This book expands upon the dialogue between the atheist philosopher Kai Nielsen and the Christian philosopher Hendrik Hart in the book Search for Community in A Withering Tradition Collected here for the first time are the responses of several prominent Canadian philosophers to Nielsen's outspoken work in the philosophy of religion including their responses to Hart's criticisms of Nielsen New replies by Hart and Nielsen to these added voices are also included This volume is of interest for students in the philosophy of religion who wish to examine the encounter between religious faith and secular humanism at the close of the twentieth century an increasingly postmodern time in which the appeal to an a historical standard of rationality is no longer sought or even thought possible This book tackles tough topics like the appropriate role of reason in the intellectual criticism and defense of faith the limits of the rational justification of human knowledge the role of pre reflective commitments in human intellectual life the nature of truth and the possibility for peace in a world consisting of a plural and often violent collection of cultural and religious groups

Physical Therapy Ethics Donald L Gabard, Mike W Martin, 2010-09-02 The thoroughly revised updated and expanded 2nd Edition offers physical therapists the tools they need as they confront the ethical dilemmas and moral controversies that they will encounter in professional practice At the same time it stimulates reflection on the moral significance of a therapist's work a neglected area of study
