Between Poetry And Politics Essays In Honour Of Enda McDonagh:

Between Poetry and Politics Linda Hogan, Barbara Fitzgerald, Enda McDonagh, 2003 The uniqueness of this collection is that it situates moral theology somewhere between poetry and politics and in so doing brings together authors whose voices are rarely heard together Artists poets politicians and theologians together reflect on the manner in which the imaginative political and religious intersect

From Jeremiad to Jihad John D. Carlson, Jonathan H. Ebel, 2012-06-06 From Jeremiad to Jihad is an ambitious volume The selections here introduce new perspectives on the intersection of religious institutions and American culture Whereas the subject of just war has largely been the provenance of religious and philosophical studies with some input from international relations and political science the authors of this volume have brought methods and questions from the study of history to bear on the discussion Carlson and Ebel have pulled together a significant work that fosters new conversations between scholars interested in just war and American religious history John Kelsay author of *Arguing the Just War in Islam* Why is America one of the world's most religious societies also one of the most violent In a sophisticated thoughtful and accessible manner the essays in this collection provide an important examination of the complexities of American character that sees the sacred as sanctioning violence and allows violence to be sanctified Mark Juergensmeyer author of *Terror in the Mind of God: The Global Rise of Religious Violence* This is a stunning collection of essays the single most comprehensive and wide ranging set yet prepared With jeremiad and jihad as their guiding tropes the contributors brilliantly trace the life of this rhetorical strain This volume is ideally suited for courses in religion and history as well as anyone interested in the role of religious violence in American culture and life Harry S Stout author of *Upon the Altar of the Nation: A Moral History of the Civil War*

War and the American Difference Stanley Hauerwas, 2011-10-01 How are American identity and America's presence in the world shaped by war and what does God have to do with it Esteemed theologian Stanley Hauerwas helps readers reflect theologically on war church justice and nonviolence in this compelling volume exploring issues such as how America depends on war for its identity how war affects the soul of a nation the sacrifices that war entails and why war is considered necessary especially in America He also examines the views of nonviolence held by Martin Luther King Jr and C S Lewis how Jesus constitutes the justice of God and the relationship between congregational ministry and Christian formation in America

The Translations of Seamus Heaney Seamus Heaney, 2023-03-21 The complete translations of the poet Seamus Heaney a Nobel laureate and prolific revolutionary translator Seamus Heaney's translation of *Beowulf* published in 1999 was immediately hailed as an undisputed masterpiece something imperishable and great James Wood *The Guardian* A few years after his death in 2013 his translation of Virgil's *Aeneid* Book VI caused a similar stir providing a remarkable and fitting epilogue to one of the great poetic careers of recent times Nick Laird *Harper's Magazine* Now for the first time the poet critic and essayist's translations are gathered in one volume Heaney translated not only classic works of Latin and Old English but also a great number of poems from Spanish

A History of Catholic Moral Theology in the Twentieth Century James F. Keenan, 2010-01-17 This is an historical survey of 20th Century Roman Catholic Theological Ethics also known as moral theology The thesis is that only through historical investigation can we really understand how the most conservative and negative field in Catholic theology at the beginning of the 20th could become by the end of the 20th century the most innovative one The 20th century begins with moral manuals being translated into the vernacular After examining the manuals of Thomas Slater and Henry Davis Keenan then turns to three works and a crowning synthesis of innovation all developed before during and soon after the Second World War The first by Odon Lottin asks whether moral theology is adequately historical Fritz Tillmann asks whether it's adequately biblical and Gerard Gilman whether it's adequately spiritual Bernard Haering integrates these contributions into his Law of Christ Of course people like Gerald Kelly and John Ford in the US are like a few moralists elsewhere classical gate keepers censoring innovation But with *Humanae vitae* and successive encyclicals bishops and popes reject the direction of moral theologians At the same time moral theologians like Josef Fuchs ask whether the locus of moral truth is in continuous universal teachings of the magisterium or in the moral judgment of the informed conscience In their move toward a deeper appreciation of their field as forming consciences they turn more deeply to local experience where they continue their work of innovation Each continent subsequently gives rise to their own respondents In Europe they speak of autonomy and personalism in Latin America liberation theology in North America Feminism and Black Catholic theology and in Asia and Africa a deep post colonial interculturatism At the end I assert that in its nature theological ethics is historical and innovative seeking moral truth for the conscience by looking to speak crossculturally

Religion and the Politics of Peace and Conflict Linda Hogan, Dylan Lee Lehrke, 2009-01-01 The connections between religion and violence are complex and multifaceted From the conflicts in Middle East and the Balkans to those in Southeast Asia and beyond religion frames and legitimates political violence Moreover in international relations since 9 11 religious language and metaphors have acquired a new significance In this context the emerging consensus appears to be not only that violence is intrinsic to religion but also that religions incite legitimate and intensify political violence However such an unambiguous indictment of religions is incomplete in that it fails both to appreciate significant counter examples and to recognize the diversity that exists within religions on the issue of violence particularly the religious roots of pacifism and the ethics of non violence This

collection explores aspects of this ambivalence between religion and violence It focuses on traditions of legitimation and pacifism within the three monotheistic religions Judaism Christianity and Islam and concludes with an examination of this ambivalence as it unfolds in each tradition s engagement with the politics of gender **Serve and Protect** Tobias Winright,2020-11-13 This collection of essays on policing and the use of force while written over the course of the last twenty five years remains relevant and timely Although issues in policing and questions about excessive force and brutality have been addressed by criminologists sociologists philosophers and criminal justice ethicists only a handful of theological ethicists treat this pressing matter While the Christian moral tradition has a voluminous record of theological attention to violence and nonviolence war and peace there is a dearth of references to policing And most considerations of criminal justice issues by Christians and their churches concentrate on prison reform or abolition and the death penalty but not policing These essays authored by a theological ethicist possessing professional experience in law enforcement seek to fill this curious gap They offer a framework for moral reasoning concerning the justification for police use of force and the just application of such force and they propose just policing as a model that is consonant with promoting a just peace in communities and society In addition they explore the implications of such an approach for wider international questions about just war terrorism the responsibility to protect and post war justice **Tuning the Rig** Fred Herron,2012-07-10 To tune the rig describes adjusting a ship s rigging the rig of a well tuned boat allows the sails to function well This task must be performed to ensure the best performance by the ship Tuning the Rig takes that metaphor as a guide for Catholic educators and administrators as well as for the larger church It argues from a variety of perspectives rooted in the Catholic imagination that the rig constantly needs to be re tuned to balance between visions of the church as teacher and learner Why should this matter to Catholic educators To Herron our understanding of the church as learner is at the heart of our understanding of ourselves as disciples One of the logical consequences of this era of baptismal consciousness is a rising awareness on the part of the laity that their task is not simply to pay pray and obey but to grow and journey in faith Herron s focus ranges from issues closely pertaining to Catholic schools to the larger questions of the Catholic imagination The underlying thread however is the challenge of maintaining the richness of the Catholic imagination of tuning the rig in changing times and the ordinary life of the church **The Rising Global Cancer Pandemic** Andrea Vicini S.J.,Philip J. Landrigan,Kurt Straif,2023-01-10 The Global Theological Ethics book series focuses on works that feature authors from around the world draw on resources from the traditions of Catholic theological ethics and attend to concrete issues facing the world today It advances the Journal of Moral Theology s mission of fostering scholarship deeply rooted in traditions of inquiry about the moral life engaged with contemporary issues and exploring the interface of Catholic moral theology philosophy economics political philosophy psychology and more **Bothering to Love** Vogt, Christopher P.,Ward, Kate,2024-08-28
