BETWEEN TWO AGES

The 21st Century and the Crisis of Meaning

William Van Dusen Wishard

The next three decades may be the most decisive 30-year period in the history of mankind. To understand why, *Between Two Ages* offers an eagle's-eye view of how the cultural, technological and spiritual tectonic plates of life have been clashing and reshaping our lives, and how civilized existence struggles with this epic transformation as we seek renewal.

Between Two Ages The 21st Century And The Crisis Of Meaning:

Between Two Ages William Van Dusen Wishard, 2001-06-29 In *Between Two Ages* Van Wishard has provided us with a masterful synthesis of the main currents of history ranging over the centuries with an experts eye to identify the key trends in economics technology and culture that have led us to this place in time By itself this would be an important contribution to our understanding But the true significance of *Between Two Ages* lies in his placing this analysis within a profoundly moral and ethical framework Van Wishard has not simply diagnosed the reasons for our spiritual malaise He has also suggested how each of us can overcome this malaise and find a larger purpose or meaning to our lives From the foreword by Dr Mitchell B Reiss Dean of International Affairs College of William it is change at the very core of life Culture smashing change Identity shattering change Soul crushing change Prior generations faced change within a context of stable institutions that functioned more or less effectively Earlier generations had a more stable if less comfortable framework as well as more clearly defined reference points Our era doesnt have such guides for all of Americas institutions from government to family from business to religion are in upheaval The past century has seen civilized life increasingly ripped from its moorings The immutable certainties that anchored our ancestors no longer seem to hold in a world where the tectonic plates of life are clashing where human antagonisms obliterate tens of thousands of people in Africa Bosnia or Chechnya in a matter of a few days or weeks where a stray bullet ends the life of an elderly lady quietly walking home from church in Washington D C In so many ways a life that has lost its essential meaning has cut giant swaths across humanity Clearly we have been standing at a unique historical dividing line the end of the modern era as well as the Industrial Age the end of the colonial period the end of the Atlantic based economic political and military global hegemony the end of Americas culture being drawn primarily from European sources the end of the masculine patriarchal hierarchical epoch and as Joseph Campbell suggests the end of the Christian eon Obviously one era doesnt stop and a new one start in a week Yearseven decades or generations of overlap take place The sense of an age ending and something new emerging was evident during the earliest years of the 20th century In 1913 Harvard philosopher George Santayana noted The civilization characteristic of Christendom has not yet disappeared yet another civilization has begun to take its place In 1928 at the height of the Roaring Twenties historian Will Durant wrote Human conduct and belief are now undergoing transformations profounder and more disturbing than any since the appearance of wealth and philosophy put an end to the tradition

Furious Pursuit Tim King, Frank Martin, 2010-03-24 You re not defined by what you ve done You re defined by Who pursues you What if you could believe that God not only chases you but has yet to leave your side for a second has yet to go a minute without courting you whispering in your heart I m right here What if you could believe that God is never distant never out of reach never indifferent to what s going on in your life Would that make a difference in your relationship with him And what if you could go a step further and believe that Gods pursuit has nothing to do with your level of faithfulness He is just as near and just as vigilant in his pursuit regardless of your

dedication to the spiritual disciplines and in spite of your struggle with sin Because of his nature it is impossible for God not to pursue you In *Furious Pursuit* Tim King and Frank Martin invite you to lay down the smaller story of your life and instead tap into the Larger Story To begin today by allowing God to transform the nature of your relationship with him To stop chasing God and start embracing the Romance that is already well under way Begin today Open yourself to God's *Furious Pursuit* Companion workbook also available

Events That Changed History Jamal Sanad Al-Suwaidi, This book is the second part of a comprehensive academic and research project initiated by H E Prof Jamal Sanad Al Suwaidi In the first part of the project *Eternal Imprints Figures That Made History and Others That Changed the Future of Their Countries* first published in 2016 he wrote about personalities who achieved great accomplishments to influence their countries and the world The second part of the project looks at historical events that triggered major shifts both positive and negative and changed the history of regions and countries or humanity itself In *Events That Changed History* the author revisits events that made history from the perspective that history will never repeat

itself However its events may share similarities Therefore a retrospective narrative of the past is in fact an attempt to better understand the present and not a tendency to ponder on and seek refuge in the past The book examines twenty issues and events relevant to different periods of history which fall within categories such as politics the military the economy and technology Some of these events took place in the Arab region and others outside it Not content with analyzing events of the distant past the author also covers a wide range of events from recent times including the establishment of the UAE Federation in December 1971 the October War of 1973 the building of Aswan High Dam in 1970 and the attacks of September 11 2001 The book also reviews historical events in which the past present and future interplay These events are closely linked to the sweeping changes the contemporary world is witnessing which have implications for the future This book is an invitation from an intellectual who is concerned with issues relevant to both his homeland and world an invitation to comprehensively and not selectively re read both our history and that of the world from an open and enlightened perspective in order to narrate historical events the way they happened It is our responsibility to help the new generation understand the past and present and not to be an accomplice in deceiving and confusing them which is a heinous historical crime that distorts awareness and poisons the mind Management Communication James S.
