Beyond The Tomorrow Mountains Children Of The Star Book 2:

Selected Essays on Enchantress from the Stars and More Sylvia Engdahl, 2024-05-22 The lead essay in this collection by the author of Newbery honor book *Enchantress from the Stars* deals with issues that she wants readers of the novel to be aware of Too often misinterpretations arise when the story is thought to be an allegory about relations between different cultures of our own world when it is literally about possible relations between different human species of other worlds that have evolved for vastly different lengths of time The two situations are not comparable and assuming that they are leads some readers to think the book endorses a view of cultural relations that was rejected by anthropologists long ago Though much in the story does apply to relationships between individual people of our world as far as culture is concerned its aim is to counter the all too common science fiction view of extraterrestrial aliens either as hostile or as benevolent beings who will step in to solve Earth's problems Whether or not there really are any aliens how young people think of them affects how they feel about the future of humankind The rest of the essays in this book are about the author's other Young Adult novels and about subjects relevant to them such as the importance of space exploration and the reality of psi powers They have been selected from her collections *Reflections on Enchantress from the Stars* and *Other Essays the Future of Being Human* and *Other Essays and From This Green Earth* Essays on Looking Outward two of which are available only as ebooks Because of their length these collections cannot be issued as paperbacks at reasonable prices so this short sampler has been produced for the benefit of readers who have a strong preference for print books and or audiobook The following essays are included *Reflections on Enchantress from the Stars* *Perspective on the Future* *The Quest of Space Age Young People* *Faith as the Focus of Children of the Star* *Update on the Critical Stage* *The Far Side of Evil's Relevance Today* *A Response to Some Reactions to Journey Between Worlds* *Breaking Out from Earth's Shell* *The Role of Psi in Human Affairs* *The Roots of Disbelief in Human Mind Powers* *Transhumanism Is a Dead End* *The Worship of Medical Authority* *Why I Don't Read Much Science Fiction*

From This Green Earth: Essays on Looking Outward Sylvia Engdahl, 2019-11-11 Much has been said about the positive effect of the photos of Earth obtained by Apollo 8 which for the first time showed our planet as a globe a fragile refuge amid barren surroundings and thereby launched the environmental movement The negative impact the subconscious apprehension resulting from realization that space is an actual place containing little that's familiar to us and perhaps much that we'd rather not meet is not spoken of But it may be no less significant Could this be one of the reasons why widespread interest in space died so soon after the first moon landing For the past fifty years space advocates have been puzzled and frustrated by the slowness of progress in space and the failure of the public to grasp its importance not only to the future of humankind but to the preservation of Earth's environment But is it really cause for discouragement In this book Sylvia Engdahl argues that in the light of history it's not surprising that acceptance of a new outlook on the universe is slow All past human advances have been made by visionary minorities without the support of their contemporaries and our

transformation into a spacefaring species will be no exception This book also includes all of Engdahl's earlier essays about space such as *Space and Human Survival* which has been popular on the Web for nearly twenty years plus new ones about the priority of Mars and the question of whether we'll ever meet hostile aliens In addition an Epilogue contains the quotations from her Web page *Space Quotes* to Ponder about why a presence in space is vital to humankind X Ray is enabled and includes biographical information about all the quotation authors as well as the people mentioned in the essays **The Future of Being Human and Other Essays** Sylvia Engdahl, 2020-01-28 What will humans be like in the future According to science fiction author Sylvia Engdahl they will be no different from what they're like now There will be many innovations in technology and ways of daily life but people are people wherever and whenever they happen to live and that's not going to change In this book Engdahl departs from the theme of space colonization on which her past essays available in her book *From This Green Earth* have focused and discusses such topics as artificial intelligence paranormal psi powers healthcare policy and the coming loss of personal privacy Her controversial views on these subjects will inspire thought about what the future is likely to bring *Reflections on Enchantress from the Stars and Other Essays* Sylvia Engdahl, 2019-10-31 Here are the author's collected essays about her Newbery Honor book *Enchantress from the Stars* and other Young Adult and adult science fiction novels plus two autobiographical essays Her comments on *Enchantress* deal with issues she would like all its readers to be aware of This is one of three books of essays that replace *Reflections on the Future* Collected Essays which has grown too long and covers too many topics Most of the essays included appeared there so if you already have that book you don't need this one The other two replacement books including a number of new essays are focused on space and on the human mind **Crossover Fiction** Sandra L. Beckett, 2010-11-24 In *Crossover Fiction* Sandra L. Beckett explores the global trend of crossover literature and explains how it is transforming literary canons concepts of readership the status of authors the publishing industry and bookselling practices This study will have significant relevance across disciplines as scholars in literary studies media and cultural studies visual arts education psychology and sociology examine the increasingly blurred borderlines between adults and young people in contemporary society notably with regard to their consumption of popular culture *The Best in Children's Books* Zena Sutherland, 1980-05 Includes indexes [Writers Directory](#) NA NA, 2016-03-05
