*Child Security in Asia* Cecilia Jacob, 2013-08-15 Millions of children around the world are affected by conflict and the enduring aftermath of war in post conflict societies This book reflects on the implications of children s insecurity for governments and the international humanitarian community by drawing on original field research in post conflict Cambodia and in Burma s eastern conflict zones The book examines the way that politics and discourses of security and child protection have further marginalised rather than enhanced the protection of children In Cambodia threats from trafficking exploitative labour and high levels of domestic and social violence challenge the government and the international humanitarian community to respond to the new human security terrain that is the legacy of three decades of political violence Burma has endured over 60 years of insurgency and civil conflict in ethnic minority states significantly affecting children who are recruited into armies killed maimed or tortured and displaced Analysing the theoretical and practical challenges faced in addressing children s security in global politics the book offers a novel framework for responding to the politics of protection that is at the heart of this crucial issue It is a useful contribution to studies on Asian Politics and International Relations and Security

**NGOs Mediating Peace** Julia Palmiano Federer, 2023-12-28 This book explores the role of nongovernmental mediators in promoting inclusive peace to negotiating parties in Myanmar s Nationwide Ceasefire Agreement NCA negotiations from 2011 2015 The influx of NGO mediators directly engaging with the negotiating parties and promoting the inclusivity norm coupled with the salience of discourse around all inclusiveness at the end of the NCA process forms a puzzle around the agency that NGO mediators wield in influencing political outcomes despite their lack of political and material leverage The author argues that NGO mediators can effectively promote norms using mediation processes as a site of norm diffusion Bespoke international conflict resolution NGOs have become key mediation actors within the last three decades through creating the niche world of private diplomacy and acting as norm entrepreneurs at the same time As informal third parties these NGO mediators directly engage with politically sensitive actors or convene unofficial peace talks As NGOs they are part of an epistemic community of mediation practice professionalizing the field and producing knowledge on what peace mediation is and what it ought to be This dual identity as both NGOs and mediators nicely sets them up with a unique agency to promote and diffuse norms These norms often reflect the liberal peacebuilding paradigm promoted from the Global North such as inclusion gender equality and transitional justice with the view that these norms are not ends in themselves but as necessary ingredients for effective mediation The book further questions whether NGOs should promote norms in the first place The outcome of the NCA process presents a critical and cautionary tale of promoting a presumed universal norm into a given locale and expecting a certain outcome without understanding how an external norm interacts with existing normative frameworks The book illustrates that while NGO mediators do possess the normative agency to effectively promote norms to negotiating parties my empirical research analyses how their promotion of the inclusivity norm to the negotiating parties in

Myanmar's NCA paradoxically resulted in exclusionary outcomes only half of the armed groups in the ethnic armed groups negotiating bloc signed and civil society was effectively crowded out from meaningful participation despite lofty rhetoric This is an open access book *MILITARY CAPITALISM IN MYANMAR* Gerard McCarthy, 2019-03-06 Military enterprises ostensibly set up to feed and supply soldiers were some of the earliest and largest Burmese commercial conglomerates established in the 1950s Union Myanmar Economic Holdings Limited UMEHL and Myanmar Economic Corporation MEC are two profit seeking military enterprises established by the military after the dissolution of the Burma Socialist Programme Party in 1988 which remain central players in Myanmar's post 2011 economy Military conglomerates are a major source of off budget revenue for the military and a main employer of retired soldiers Yet few veterans receive more than a small piece of the profits from UMEHL The vast bulk of formal dividends instead disproportionately benefit higher ranking officers and institutions within the Tatmadaw Military capitalism entrenches the autonomy of the Tatmadaw from civilian oversight Despite this obligatory or semi coerced contributions from active duty soldiers are a source of cash flow for UMEHL effectively constituting a transfer from the government budget to the military's off budget entities The most significant source of livelihoods support for most veterans is the service pension dispersed by the Ministry of Finance and Planning MoPF Despite delivering suboptimal welfare outcomes for most soldiers and veterans while eroding the legitimacy of ceasefires successive governments since 1988 including Aung San Suu Kyi's National League for Democracy NLD administration have entrenched military capitalism by encouraging commercial activities of armed groups that enter into ceasefire agreements Extending military pensions already paid by the Ministry of Planning and Finance to retired members of armed groups could deliver a far more consistent and tangible peace dividend than the commercial extraction of resources from ceasefire areas More balanced civil military relations and fairer social outcomes for military personnel will rely on civilian led state institutions delivering effective and substantive welfare support beyond the commercially oriented welfare arrangements of military conglomerates *Southeast Asian Culture and Heritage in a Globalising World* Rahil Ismail, 2016-04-01 Southeast Asia has in recent years become a crossroads of cultures with high levels of ethnic pluralism not only between countries sub regions and urban areas but also at the local levels of community and neighbourhood Illustrated by a series of international case studies this book demonstrates how the forces of post colonialism in their various manifestations are accelerating social change and creating new and imagined communities some of which are potentially disruptive and which may well threaten the longer term sustainability of the region Interdisciplinary in approach this book brings together geographers historians anthropologists architects education specialists planners and sociologists to make connections and new insights and to provide a truly comprehensive view of heritage culture and identity in this dynamic region *State and Society in Modern Rangoon* Donald M. Seekins, 2014-06-17 Rangoon a city of many identities has since colonial times been a focus of conflict between the vertical power of the colonial military run state and the horizontal power

**The Political Theory of Tyranny in Singapore and Burma** Stephen McCarthy, 2006-04-18 Covering various fields in political science this new book presents an historical and political cultural analysis of Buddhism and Confucianism Using Singapore and Burma as case studies the book questions the basic assumptions of democratization theory examining the political science of tyranny and exploring the rhetorical manipulation of religion for the purpose of political legitimacy A welcome addition to the political science and Asian studies literature McCarthy addresses many of the current issues that underlie the field of democratization in comparative politics and discusses the issue of imposing Western cultural bias in studying non Western regimes by analyzing rhetorical traits that are universally regular in politics

**Myanmar (Burma) since the 1988 Uprising** Andrew Selth, 2022-01-24 Updated by popular demand this is the fourth edition of this important bibliography It lists a wide selection of works on or about Myanmar published in English and in hard copy since the 1988 pro democracy uprising which marked the beginning of a new era in Myanmar s modern history There are now 2 727 titles listed They have been written edited translated or compiled by over 2 000 people from many different backgrounds These works have been organized into thirty five subject chapters containing ninety five discrete sections There are also four appendices including a comprehensive reading guide for those unfamiliar with Myanmar or who may be seeking guidance on particular topics This book is an invaluable aid to officials scholars journalists armchair travellers and others with an interest in this fascinating but deeply troubled country

**Burma Or Myanmar? The Struggle For National Identity** Lowell Dittmer, 2010-10-20 Burma also known as Myanmar strategically located between China and India is one of the largest and most richly endowed states in Southeast Asia Yet it remains both economically and politically underdeveloped Why is this so We argue that much of the reason has to do with an ongoing struggle for national identity This struggle involves not only whether the state should be authoritarian or democratic but how Burma s myriad ethnic minorities should be accommodated within it what external reference national reference groups the country should identify and align with and how it should move forward Identity formation normally occurs much earlier in the national developmental process but Burma has had unusually intransigent problems that were never successfully resolved during the colonial period and have simply been suppressed by force since then This protracted divisiveness has stunted the nation s modernization and growth Written from a unique perspective this book on Myanmar deviates from the traditional authoritarian versus democratic rhetoric Although that is certainly part of the picture this multifaceted analysis focuses rather on the issue of identity formation an issue that has all too often failed to make the headlines Much can be learned from Myanmar s identity problems making this book essential reading for all students and professionals interested in development studies or comparative politics By whatever name Burma is not only a fascinating country but one likely to play an increasingly vital role in Asia s future

*Myanmar/Burma* Alexis Rieffel, 2010-10-06 Examines internal issues of Myanmar also known as Burma as well as the country s relations with its neighbors and the

United States discussing the Obama administration's policy of pragmatic engagement which links the removal of sanctions to implementation of greater freedom and respect of human rights Original **Burma** Benedict Rogers, 2012-05-31 UPDATED

For more than 50 years Burma has been ruled by a succession of military regimes which rank among the most oppressive dictatorships in the world. Accused of crimes against humanity they have brutally mistreated their people. Yet in the last few years the pace of change has been breathtaking. Much is now hoped for. However, Burma is one of the most ethnically diverse nations in Southeast Asia; there are roughly seven major ethnic groups living along its borders. They have a long history of conflict with the government and have been cruelly treated by the current regime. Their future affects the country as a whole, as Benedict Rogers explains. Drawing heavily on his many fact-finding visits both inside Burma and along its frontiers, he gives a unique appraisal of the current ethnic situation and its implications for the nation as a whole. Wide-ranging, expertly researched, and full of brand-new accounts of the courage and determination of the Burmese people, *Burma: A Nation at the Crossroads* explains the country's conflicted history as well as its contemporary struggle for justice. Burma stands poised for freedom or for further repression. No one can be sure. This fascinating and accessible book describes what is really happening inside this beautiful, secretive, and potentially prosperous country.
