Bracing for the Apocalypse Anna Maria Bounds,2020-06-04 Increasing American fear about terrorism environmental catastrophes pandemics and economic crises has fueled interest in prepping confronting disaster by mastering survivalist skills This trend of self reliance is not merely evidence of the American belief in the power of the individual rather this pragmatic shift away from expecting government aid during a disaster reflects a weakened belief in the bond between government and its citizens during a time of crisis This ethnographic study explores the rise of the urban preppers subculture in New York City shedding light on the distinctive approach of city dwellers in preparing for disaster With attention to the role of factors such as class race gender and one s expectations of government it shows that how one

imagines Doomsday affects how one prepares for it Drawing on participant observation the author explores preppers views on the central question of whether to bug out or hunker down in the event of disaster and examines the ways in which the prepper economy increases revenue by targeting concerns over developing skills building networks securing equipment and arranging a safe locale A rich qualitative study Bracing for the Apocalypse will appeal to scholars of sociology and anthropology with interests in urban studies ethnography and subcultures **Survival Instincts** Jasper

strategies for mitigating these risks including route selection teamwork and appropriate equipment A key argument is that many drowning incidents are preventable through increased awareness and proactive risk mitigation shifting the focus from reactive rescue to planning and prevention Ultimately River Crossing Perils provides readers with the knowledge and tools necessary to assess risks develop safe crossing strategies and respond effectively in emergencies It combines scientific data expert opinions and practical advice making it a valuable resource for anyone venturing into remote environments where river crossings are necessary
