

Some important discussion question answers

Chapter 1: THE THREE SECTORS OF ECONOMY

Q.no.1. Which sector do you intend to work in or do you already work in How do you fit in the real picture?

I intend to work in banking sector which is the part of tertiary sector of an economy. I want to be engaged in banking sector as a Chief Executive Officer (CEO) of any banking and financial institution.

My actions or efforts cannot remain untouched from the remaining two sectors of the economy i.e. primary sector and secondary sector. I need furnitures, papers, pens, laptop, projector, etc in my office room to perform my work effectively and efficiently. All these products are obtained and manufactured in manufacturing sector i.e. secondary sector. However, I cannot neglect the fact that all the raw materials required to process and finish those products are obtained from the primary sector of an economy.

On the other hand, I will be performing my duties and responsibilities in order to fulfill the needs of my customers. My service to the general population and to the business will be contributing to the remaining two sectors of the economy. Providing loan can be one of my duties or services, so the loan provided by my institution to the farmers or to the manufacturing industry will probably be promoting primary sector (i.e. agriculture) or the secondary sector (i.e. industrial activities and constructions). Besides, flow of funds from banking sectors to restaurants, hospitals, movies (through producers), etc. will also enhance the service sectors. Thus, it is clear that my activities fit into the total picture. Whatever I use to perform my obligations and the result of my performance is directly or indirectly associated with the other remaining sectors of the economy.

Not only me, all the people working in any one sector are fitted into the total picture because they are contributing to the remaining two sectors directly or indirectly either knowingly or unknowingly. It is, thus, clear that working in a particular sector means enhancing the overall economical activities in the economy.

Q.no.2. Describe the different sectors of economy along with examples.

A nation's economy can be divided into various sectors to define the proportion of the population engaged in the activity sector. These sectors are-

- a) Primary sector
- b) Secondary sector
- c) Tertiary sector
