

A young man and woman are studying together in a classroom. The woman is sitting at a desk, looking down at a book or paper, and holding a green pen. The man is standing behind her, leaning over her shoulder and looking at the same material. They are both focused on their work. The background shows a classroom with windows and other students.

Gopinathan, 2013-02-11 In the World Library of Educationalists series international experts themselves compile career long collections of what they judge to be their finest pieces extracts from books key articles salient research findings major theoretical and practical contributions so the world can read them in a single manageable volume In a career spanning four decades S Gopinathan is considered by many to be a pillar of teacher education in Singapore He has played a key role in the establishment and transformation of Singapore's education system pioneering many programmes and advising on policy both nationally and internationally In the process he has contributed over 25 books authored co authored and edited and 115 articles and book chapters to the field and continues to inspire and empower younger colleagues in the region to challenge the cause for excellence in education and education reform In Education and the Nation State S Gopinathan brings together 14 of his key writings in one volume Starting with a specially written introduction which gives an overview of Gopinathan's career and contextualises his selection the essays are then arranged thematically providing an overview not just of his own career but also reflecting the development and key concerns of education in the nation state that is Singapore 13 Ideas

That Are Transforming the Community College World Terry U. O'Banion, 2019-03-15 America's community colleges are experiencing the most creative and substantive period of transformation in their 118 year history There has never been so much research so much support from foundations and so much commitment from national leaders to reimagine community colleges for today and for the future 13 Ideas that Are Transforming the Community College World edited by Terry U O Banion is the seminal work that captures the major ideas faced by community college leaders in this period of transformation The book includes 23 authors representing 12 national organizations perhaps the most significant and substantive list of individuals ever to participate in an edited book on the community college Each author is a nationally recognized authority on his or her chapter and all have played major roles as leaders of national organizations Improving Access to Preschool and Postsecondary Education United States. Congress. Joint Economic Committee. Subcommittee on Education and Health, 1989

The Higher Education Act United States. Congress. House. Committee on Education and Labor. Subcommittee on Higher Education, Lifelong Learning, and Competitiveness, 2007 **The Conference on Inflation--Health, Education, Income Security, and Social Services, September 19-20, 1974, Washington, D.C. ,1974** **Guyana's Great Economic Downswing, 1977-1990** Ramesh Gampat, 2020-10-19 Much of Guyana's 20th century history was defined by the PNC dictatorship and the political and economic wreckage it left behind In Guyana's Great Economic Downswing 1977 to 1990 Dr Ramesh Gampat presents a comprehensive study of these specific years when the national economy contracted by 2

7 percent annually He explores the multiple facets of the country's political tribalism which does not value freedom liberty and the flourishing of all people it values only freedom liberty and flourishing of tribes The study reinforces the widely held belief that until and unless these adversarial groups subsume their respective selfish interests and commit to the common cause of national peace and development the great downswing might not rest as a historical event but could well re emerge with further economic devastation if the lessons go unheeded Dr Gampat makes a strong case for federalism as a solution to Guyana's ethnic politics Federalism he posits would ensure that all Guyanese have equal access to opportunities and resources since a system of provincial governance would be better placed to address discriminatory policies and practices at a localised level With the country sitting on the cusp of transformative development to be propelled by new found oil wealth there is an urgency to settle the divisive politics if every Guyanese is to benefit fairly and equitably from the economic boom Guyana's Great Economic Downswing 1977 to 1990 offers up a studied and comprehensive analysis that should be part of that bipartisan discourse going forward Ryhaan Shah Novelist Social Activist A few piecemeal academic articles analyzing Guyana's economic evolution over the period 1977 to 1990 were written but they are scattered and lost away in various journals What was missing is a comprehensive and rigorous exploration of the era of Cooperative Socialism Dr Ramesh Gampat's book fills this gap It is a superb synthesis of historical theoretical and econometric exploration of the Great Downswing The book not only provides estimates of important macroeconomic concepts such as Guyana's total factor productivity and long term growth but also produces the useful statistics and reviews of poverty inequality life expectancy education outcomes as well as a detailed analysis of the rice sector As if these are not enough Gampat sets the tone by situating the exploration in the country's long standing and debilitating ethno political dynamics This self contained book will be of tremendous use to policy makers journalists and students interested in the historical context of present day outcomes I highly recommend this book to public libraries and home reference libraries Tarron Khemraj William and Marie Selby Professor of Economics and International Studies New College of Florida
