The City in the Roman West, c.250 BC-c.AD 250 Ray Laurence, Simon Esmonde Cleary, Gareth Sears, 2011-07-14 The city is widely regarded as the most characteristic expression of the social cultural and economic formations of the Roman Empire This was especially true in the Latin speaking West where urbanism was much less deeply ingrained than in the Greek speaking East but where networks of cities grew up during the centuries following conquest and occupation This well illustrated synthesis provides students and specialists with an overview of the development of the city in Italy Gaul Britain Germany Spain and North Africa whether their interests lie in ancient history Roman archaeology or the wider history of urbanism It accounts not only for the city's geographical and temporal spread and its associated monuments such as amphitheatres and baths but also for its importance to the rulers of the Empire as well as the provincials and locals

An Islandwide Struggle for Freedom Graham T. Nessler, 2016-03-14 Reinterpreting the Haitian Revolution as both an islandwide and a circum Caribbean phenomenon Graham Nessler examines the intertwined histories of Saint Domingue the French colony that became Haiti and Santo Domingo the Spanish colony that

became the Dominican Republic Tracing conflicts over the terms and boundaries of territory liberty and citizenship that transpired in the two colonies that shared one island Nessler argues that the territories borders and governance were often unclear and mutually influential during a tumultuous period that witnessed emancipation in Saint Domingue and reenslavement in Santo Domingo Nessler aligns the better known history of the French side with a full investigation and interpretation of events on the Spanish side articulating the importance of Santo Domingo in the conflicts that reshaped the political terrain of the Atlantic world Nessler also analyzes the strategies employed by those claimed as slaves in both colonies to gain liberty and equal citizenship In doing so he reveals what was at stake for slaves and free nonwhites in their uses of colonial legal systems and how their understanding of legal matters affected the colonies relationships with each other and with the French and Spanish metropolises

Fire Ant Armies Yves Earhart, AI, 2025-02-12 *Fire Ant Armies* explores the captivating world of fire ants unveiling their intricate social structures potent venom and ecological dominance These tiny creatures exhibit remarkable collective intelligence enabling them to take down much larger opponents For instance their coordinated attacks and sophisticated communication networks demonstrate the power of social insect behavior a key focus of the book The book examines fire ants biology social dynamics and ecological impact It argues that their success stems from their highly organized societies and effective chemical warfare challenging the notion that individual strength is paramount The book also explores the chemical composition of fire ant venom and its effects on various organisms and ecosystems *Fire Ant Armies* begins by introducing the fundamentals of fire ant biology and social structure then progresses to their hunting defense and colony expansion mechanisms It concludes by exploring their ecological impact and potential management strategies offering a comprehensive understanding of these complex creatures

Architecture of Devotion Jaynie Anderson, Max Vodola, Shane Carmody, 2021-11-30 *The Architecture of Devotion* James Goold and His Legacies in Colonial Melbourne honours the life and cultural contribution of Archbishop James Alipius Goold 1812 1886 Goold arrived in 1848 as the first Catholic bishop of the newly created diocese of Melbourne and quickly adapted to Australian colonial conditions setting about establishing an extraordinary network of schools churches and welfare institutions across Victoria Beyond the immediate task of building bluestone bricks and mortar Goold carried a grand vision sensing that Melbourne was on its way to becoming a grand international metropolis A collector and man of refined taste Goold not only adorned religious institutions with quality Baroque artwork but he also amassed a unique book collection and private library that showcased his European cultural sensibilities A companion to *The Invention of Melbourne* A Baroque Archbishop and a Gothic Architect 2019 *The Architecture of Devotion* brings Goold to life as we follow him around the colony and witness how he shaped the fabric of Victorian suburbs and towns These volumes have been supported by the Australian Research Council which has recognised them as among the best research projects in Australia *The Invention of Melbourne* was commended in the Victorian Community History Award History Publication Award 2020

Water Capitalism Walter E. Block, Peter L.

Nelson,2015-10-30 Water covers some 75% of the earth s surface while land covers 25% approximately Yet the former accounts for less than 1% of world GDP the latter 99% plus Part of the reason for this imbalance is that there are more people located on land than water But a more important explanation is that while land is privately owned water is unowned with the exception of a few small lakes and ponds or governmentally owned rivers large lakes This gives rise to the tragedy of the commons when something is unowned people have less of an incentive to care for it preserve it and protect it than when they own it As a result we have oil spills depletion of fish stocks threatened extinction of some species e g whales shark attacks polluted and dried up rivers misallocated water unsafe boating piracy and other indices of economic disarray which if they had occurred on the land would have been more easily identified as the result of the tragedy of the commons and or government ownership and mismanagement The purpose of this book is to make the case for privatization of all bodies of water without exception In the tragic example of the Soviet Union the 97% of the land owned by the state accounted for 75% of the crops On the 3% of the land privately owned 25% of the crops were grown The obvious mandate requires that we privatize the land and prosper The present volume applies this lesson in detail to bodies of water [A Companion to the Archaeology of the Roman Empire, 2 Volume Set](#) Barbara Burrell,2024-03-13 A one of a kind exploration of archaeological evidence from the Roman Empire between 44 BCE and 337 CE In [A Companion to the Archaeology of the Roman Empire](#) distinguished scholar and archaeologist Professor Barbara Burrell delivers an illuminating and wide ranging discussion of peoples institutions and their material remains across the Roman Empire Divided into two parts the book begins by focusing on the unifying factors institutions and processes that affected the entire empire This ends with a chapter by Professor Greg Woolf Ronald J Mellor Professor of Ancient History at UCLA which summarizes and enlarges upon the themes and contributions of the volume Meanwhile the second part brings out local patterns and peculiarities within the archaeological remains of the City of Rome as well as almost every province of its empire Each chapter is written by a noted scholar whose career has focused on the subject Chronological coverage for each chapter is formally 44 BCE to 337 CE but since material remains are not always so closely datable most chapters center on the first three centuries of the Common Era plus or minus 50 years In addition the book is amply illustrated and includes new and little known finds from oft ignored provinces Readers will also find A thorough introduction to the peoples and operations of the Roman Empire including not just how the center affected the periphery Romanization but how peripheral provinces operated on their own and among their neighbors Comprehensive explorations of local patterns within individual provinces Contributions from a diverse panel of leading scholars in the field A unique form of organization that brings out systems across the empire such as transport across sea rivers and roads monetary systems pottery and foodways the military construction and technology Perfect for graduate and advanced undergraduate students of archaeology and the history of the Roman Empire [A Companion to the Archaeology of the Roman Empire](#) will also earn a place in the libraries of professional archaeologists in other fields including Mayanists

medievalists and Far Eastern scholars seeking comparanda and bibliography on other imperial structures **Homicide Justified** Andrew T. Fede, 2017-07-15 This comparative study looks at the laws concerning the murder of slaves by their masters and at how these laws were implemented Andrew T Fede cites a wide range of cases across time place and circumstance to illuminate legal judicial and other complexities surrounding this regrettably common occurrence These laws had evolved to limit in different ways the masters rights to severely punish and even kill their slaves while protecting valuable enslaved people understood as property from wanton destruction by hirers overseers and poor whites who did not own slaves To explore the conflicts of masters rights with state and colonial laws Fede shows how slave homicide law evolved and was enforced not only in the United States but also in ancient Roman Visigoth Spanish Portuguese French and British jurisdictions His comparative approach reveals how legal reforms regarding slave homicide in antebellum times like past reforms dictated by emperors and kings were the products of changing perceptions of the interests of the public of the individual slave owners and of the slave owners families heirs and creditors Although some slave murders came to be regarded as capital offenses the laws consistently reinforced the second class status of slaves This influence Fede concludes flowed over into the application of law to free African Americans and would even make itself felt in the legal attitudes that underlay the Jim Crow era
