Selected Readings from Acupuncture Classics 513 Traditional Chinese Medicine Classics 2

Answers to and A Handbook of TCM Patterns & Their Treatments Bob Flaws, Daniel Finney, 1996 This book is the second revised edition of a practical handbook of Chinese medical patterns with their disease causes and mechanisms signs and symptoms treatment principles guiding formulas main modifications and acupuncture treatments It is meant for both the student and the clinical practitioner The authors have included numerous patterns previously not described in the English language literature as well as many complex patterns which are commonly seen in real life practice in the West It also includes a symptom sign index and a formula index for easy reference All medicinal names in this new edition conform to Bensky et al s Chinese Herbal Medicine Materia Medica 3rd edition and all Chinese medical terminology corresponds to Wiseman and Feng s A Practical Dictionary of Chinese Medicine Ingredients in Chinese medicinal formulas begin with their pinyin names and are listed down for easier reference In addition this new edition contains a number of case histories for use in problem based learning PBL along with suggested answers thus making it even more useful in the classroom

Acupuncture Cun Wu Shi, 1995 TCM Study Guide Series Acupuncture provides resource material and multiple choice questions designed to help TCM practitioners and students prepare themselves to take acupuncture board tests The book s 2 200 questions cover point location and function needling techniques moxibustion ear and head acupuncture case diagnosis and treatment strategies Answers to all of the questions are found in the back of the book The book s resource material provides the location of every primary meridian point information on point function special points points of intersection ear acupuncture and a table of terminology equivalencies

TCM Case Studies: Pain Management Youping Hu, Al Stone, Junmei Wu, 2014-10-01 In the practice of TCM there is no complaint more common than pain This text describes the treatment of pain syndromes according to the standard of care practiced among the professional Chinese medicine doctors in modern China Because modern TCM in China commonly exists in an integrated environment the topics include both patient centered complaints such as headache as well as Western designations such as thoracic outlet syndrome In either case the complaint immediately gives way to the most relevant information a practitioner needs including possible patterns and their patho mechanisms treatment principles and point and herb prescriptions Following the needs of the professional learning opportunities are provided thanks to copious case studies written by experts in the field of pain management and internal medicine Chapters then target students studying TCM with discussions that provide a deeper consideration of the topics Each chapter also features a few multiple choice questions that challenge and assist in memorization

Test Prep Workbook for Basic TCM Theory Bai-song Zhong, 2007 This book is designed as a study guide for either students or practitioners needing additional information on basic TCM theory It is also designed to be extremely helpful for those preparing for the basic TCM theory portion of the NCCAOM exam The book is divided into seven tests containing 125 questions each Each test includes an answer sheet and an answer key Practitioners

may also find the information contained in this book useful in their everyday clinical practice Curing Headaches Naturally with Chinese Medicine Bob Flaws,1998 Chinese medicine has effective answers for the prevention diagnosis and treatment of headaches This book explains the benefits of Chinese medicine and covers self care and home remedies including self massage magnet therapy moxibustion aromatherapy Chinese patent medicines and herbal teas The Treatment of Cardiovascular Diseases with Chinese Medicine Simon Becker,Bob Flaws,Robert Casañas,2005 **160 Essential Chinese Herbal Patent Medicines** Bob Flaws,1999 This is a textbook on and compilation of 160 ready made Chinese herbal medicines Organized according to the same categories as Chinese formulas and prescriptions books it discusses the ingredients functions indications dosages and contraindications of 160 medicines These medicines and the companies that produce them have been selected not only for their clinical utility but also because they are free from heavy metals pesticides Western pharmaceuticals or endangered species The author also discusses how to combine these medicines to treat complex pattern presentations There is an extensive symptom index and a formula index *The Pulse Classic* Shuhe Wang,1997 The Mai Jing or Pulse Classic was written in the late Han dynasty by Wang Shu he It is the first book in the Chinese medical literature entirely devoted to pulse diagnosis As such it is the undeniable and necessary foundation text for anyone seriously interested in understanding the rationale for and method of reading the pulse in Chinese medicine Although not an easy read this book is a mine of valuable information for those wishing to go more deeply into a study of the pulse
