Ashkanasy, Cary L. Cooper, Julian Barling, 2025-04-22 *Imagining the Post COVID Workplace* explores the impact of how work and the workplace have changed as a result of the COVID 19 pandemic. Cost of living crisis, worldwide inflation and potential impending recession. Leading scholars from across the globe consider the challenges and opportunities the pandemic has created for organizations and employees in all aspects of their jobs and working lives. The book follows a narrative from the broad pandemic induced disruptions to individual and organizational responses and new work dynamics culminating in the long term societal impacts on work and well being. The chapters examine key trends from organizational psychological topics including communication, HR strategy, culture, teamwork, leadership, ethics, managing stress and burnout, workplace health and safety, flexible working, the future of careers and retirement. Brought together, these chapters offer a comprehensive overview of important areas within the field of work and organizational psychology and how they connect to the post COVID workplace. The authors provide guidance on embracing agility, resilience and innovation to thrive in an uncertain and rapidly changing environment. This book is essential reading for professionals looking to understand and redesign their workplace as a result of the changes due to the COVID 19 pandemic, including industry leaders, organizational psychologists, human resource professionals, employers and managers. Ending Sexual Violence in College Joanne H. Gavin, James Campbell Quick, David J. Gavin, 2021-03-23 How do we create a culture of zero tolerance for sexual violence on college campuses In a world where one in five women on campus experience some form of sexual assault what would it take to create a campus culture that was free of violence against women From a public health perspective sexual assault is an epidemic on campuses but why What is it about a campus community culture that permits or encourages this at a time when a majority of students are now female In this practical guide for colleges and universities Joanne H Gavin James Campbell Quick and David J Gavin lay out a community based model that is designed to eliminate sexual misconduct spot it before it happens punish its perpetrators support its victims survivors and end this epidemic Ending Sexual Violence in College is a prescriptive guide for creating a campus culture that is intolerant of sexual misconduct regardless of who is involved or the context in which it happens A culture of

intolerance the authors argue does not consider the role or status of either the perpetrator or victim survivor Rather this culture protects all members Using a public health model with an emphasis on prevention to create this cultural change the book utilizes psychological and organizational research to understand the challenges of making these changes while enhancing the odds of permanent cultural change for the better Designed to spur community wide conversations on how we can make our campuses safe from sexual violence this book s preventive approach allows communities to self monitor The authors include case studies of institutions that have not been proactive in putting programs in place to protect students as well as examples of institutions that are effectively addressing these problems Aimed at college administrators and Title IX coordinators who are responsible for leading campuses that are safe for everyone Ending Sexual Violence in College also enables those who work or live on a college campus to take an active role in making the campus safer **Egology. 73**
