Knowledge of Predictive Techniques of Nadi Astrology Ram Babu Sao, This book Knowledge of Predictive Techniques of Nadi Astrology is a powerful tool for gaining profound knowledge about the Event Prediction of a person born with a unique set of psychological tendencies and life potentials The horoscope shows us what we are presently working with based on our past actions and thoughts Besides providing deep insight into the past and present In the realm of Vedic Astrology much has been said about planetary influences dasha systems house significations and nakshatra based interpretations But there lays a hidden terrain often overlooked yet profoundly potent the idea that every planet casts not

only its influence but also a psychological reflection upon the native. These reflections are not mere metaphors; they are real impressions on the mind, often functioning as shadows, archetypes, or inner voices that shape how an individual perceives reality, makes choices, and lives out their karma. In this article, we shall dive into this esoteric junction between Jyotish and psychology, especially focusing on what can be called the Pratibimb Gyaan: Knowledge of Planetary Reflections. This approach fuses traditional astrological principles with a psychological lens, drawing upon deeper truths embedded in ancient texts and supported by experiential insights.

Understanding the Concept of Planetary Reflections

What do we mean by planetary reflections? Each graha (planet) is not just a karaka (significator) of certain events but also a bearer of certain psychological tendencies. These tendencies, when unacknowledged, can operate from the unconscious, manifesting as compulsions, projections, fears, or irrational desires. In simpler terms, we carry within us the inner Mars, the inner Moon, the inner Rahu, and so on. These inner grahas behave like psychological sub-personalities, often conflicting with one another or aligning based on planetary relationships in the natal chart.

For instance, when a person has a strong Mars aspecting Moon, there is a potential for inner aggression or restlessness to dominate emotional peace. But this doesn't just play out externally; it creates an inner battlefield. The Moon, symbolizing the emotional mind (manas), reflects the agitation of Mars, like water disturbed by fire. These reflections become psychological patterns. Mars reflects as the warrior, the drive, the impulse to dominate or fight. Saturn reflects as fear, control, restriction, and also deep-rooted endurance.
