Young, Robert Buzzanco, 2008-04-15 A Companion to the Vietnam War contains twenty four definitive essays on America s longest and most divisive foreign conflict It represents the best current scholarship on this controversial and influential episode in modern American history Highlights issues of nationalism culture gender and race Covers the breadth of Vietnam War history including American war policies the Vietnamese perspective the antiwar movement and the American home front Surveys and evaluates the best scholarship on every important era and topic Includes a select bibliography to guide further research **Noam Chomsky** , 1986-01-01 The impetus for producing a bibliography of Noam Chomsky s output so far derives from a strong interest in and commitment to a historical accounting of the contribution to the field of linguistic theory and possibly other subjects such as philosophy and political science by a man who has dominated linguistics for more than a generation at least in North America This bibliography lists his writings in linguistics and related fields his writings on political issues and other non linguistic subjects and interview and discussions with Noam Chomsky To Reason Why Jeffrey P.
