## SPOILER SYSTEM

On the upper surface of each wing there are four spoiler panels. The two inboard panels are the ground spoilers, and the two outboard panels are the multifunction spoilers.

The system is computer controlled and hydraulically operated, two ground spoilers provide ground lift dumping functions. The multifunction spoilers provide roll assist, proportional lift dumping and ground lift dumping functions.

The ground spoilers have only two positions: fully retracted during flight or fully deployed after landing. The inboard and outboard ground spoilers, when tied together with the multifunction spoilers, comprise the ground spoilers system.
