Bond Secrets Writing 9 11 Years:

9/11 Ten Years Later David Ray Griffin, 2012-04-10 On the tenth anniversary of the September 11 2001 terrorist attacks David Ray Griffin reviews the troubling questions that remain unanswered 9 11 Ten Years Later is David Ray Griffin's tenth book about the tragic events of September 11 2001 Asking in the first chapter whether 9 11 justified the war in Afghanistan he explains why it did not In the following three chapters devoted to the destruction of the World Trade Center Griffin asks why otherwise rational journalists have endorsed miracles understood as events that contradict laws of science Also introducing the book's theme Griffin points out that 9 11 has been categorized by some social scientists as a state crime against democracy Turning next to debates within the 9 11 Truth Movement Griffin reinforces his claim that the reported phone calls from the airliners were faked and argues that the intensely debated issue about the Pentagon whether it was struck by a Boeing 757 is quite unimportant Finally Griffin suggests that the basic faith of Americans is not Christianity but nationalist faith which most fundamentally prevents Americans from examining evidence that 9 11 was orchestrated by U S leaders and argues that the success thus far of the 9 11 state crime against democracy need not be permanent The Secret Code of the Superior Investor James Glassman, 2002-01-15 In these uncertain times learn how to crack the code and become a superior investor Don't worry about the market the economy or the Fed Instead concentrate on what's important how to construct your own bulletproof portfolio by finding the best individual stocks and mutual funds for you This timely book is your guide to volatile markets We live in a world saturated with the short term Who's up who's down Which stocks rose yesterday which fell Did corporate profits rise or drop last quarter what's going to happen this quarter Is Alan Greenspan raising or lowering interest rates what's the impact The superior investor knows that none of this matters He or she understands that investing is simple but not in the way most people think With Jim Glassman as your guide everything about investing becomes clear You'll know what to do how to behave and how to profit whatever the market the economy and your stocks are doing Superior investors crack the code of investing and practice a coherent philosophy that gives them the strength and confidence to do the right thing no matter which way the economic and financial winds blow They're relaxed calm cool and collected because the secret code provides the foundation for making superior investments the kind that generate wealth to fund more interesting pursuits provide for their children's education and fund retirement Superior investors Are not outsmarters people who try to beat the system through inside advice and superior brainpower but partakers They know that the best way to make money is to share in the profits of successful businesses Own a portfolio that looks like the U S economy ten years from now Know the kind of investments they should be making e.g. pharmaceuticals for profit education mind numbingly boring but extraordinarily profitable companies and those they should not e.g. corporate bonds Understand when to start selling the stocks they've bought almost never only when the fundamental reasons why they bought in the first place change Understand how to pick the companies that will make them superior investors See that bear

markets are for buying We live in a world of increasing uncertainty but by practicing the principles of The Secret Code of the Superior Investor day in and day out for years on end your future will indeed be superior From the Hardcover edition
