A Sounding Brass Elect Trilogy 3:

Morals on the Book of Job: Volumes 1 to 3 Saint Gregory the Great, Aeterna Press, The following Commentary may perhaps be regarded with the less interest by some readers as not being founded on a critical examination of the original Text Perhaps however there may also be readers who are glad to have their attention withdrawn from difficulties to them insuperable and fixed on those deep and pervading characteristics which it is the privilege of holiness to read in the sacred page Criticism may contradict the interpretation of a sentence and give a different turn to particulars but the main scope of the work is founded on principles of a higher order and involves a perception of truths to which the acutest critic may perchance be blind The utmost that criticism can do for the study of Holy Writ is to furnish as it were a correct Text for the reading of the spiritual eye And if there is any Book in the sacred Canon in which the bearing of words is more important than the mere thing said it is the Book of Job Aeterna Press
