Walking Life Antonia Malchik, 2019-05-07 For readers of On Trails this is an incisive utterly engaging exploration of walking how it is fundamental to our being human how we've designed it out of our lives and how it is essential that we reembrace it I'm going for a walk How often has this phrase been uttered by someone with a heart full of anger or sorrow Or as an invitation a precursor to a declaration of love Our species and its predecessors have been bipedal walkers for at least six

million years by now we take this seemingly arbitrary motion for granted Yet how many of us still really walk in our everyday lives Driven by a combination of a car centric culture and an insatiable thirst for productivity and efficiency we re spending more time sedentary and alone than we ever have before If bipedal walking is truly what makes our species human as paleoanthropologists claim what does it mean that we are designing walking right out of our lives Antonia Malchik asks essential questions at the center of humanity s evolution and social structures Who gets to walk and where How did we lose the right to walk and what implications does that have for the strength of our communities the future of democracy and the pervasive loneliness of individual lives The loss of walking as an individual and a community act has the potential to destroy our deepest spiritual connections our democratic society our neighborhoods and our freedom But we can change the course of our mobility And we need to Delving into a wealth of science history and anecdote from our deepest origins as hominins to our first steps as babies to universal design and social infrastructure A Walking Life shows exactly how walking is essential how deeply reliant our brains and bodies are on this simple pedestrian act and how we can reclaim it *Secret Walks* Charles Fleming, 2015-05-12 Revised and Updated in November 2020 *Secret Walks* A Walking Guide to the Hidden Trails of Los Angeles is a sequel to the popular *Secret Stairs* A Walking Guide to the Historic Staircases of Los Angeles and features another collection of exciting urban walks through parks canyons and neighborhoods unknown and unseen by most Angelinos Each walk is rated for duration distance and difficulty and is accompanied by a map The walks like those in *Secret Stairs* are filled with fascinating factoids about historical landmarks the original Bat Cave from Batman the lake where Opie learned to fish on *The Andy Griffith Show* or the storage barn for one of L A s oldest wineries The book also highlights the people who made the landmarks famous the infamous water engineer William Mulholland the convicted murderer and philanthropist Colonel Griffith J Griffith Charles Lummis who walked from Cincinnati to Los Angeles to take a job on the L A Times and tobacco millionaire Abbot Kinney who dug canals to drain the marshes south of Santa Monica and create his American Venice Written in the entertainingly informed style that has made *Secret Stairs* a Los Angeles Times best seller *Secret Walks* is the perfect book for the walker eager to explore but tired of the crowds at Runyon Canyon or Temescal Park Current Law, 1905
