Judge Antônio A. Cançado Trindade. The Construction of a Humanized International Law Antônio Augusto Cançado Trindade, 2017-03-06 The current volume supplements Volume 1 and 2 of The Construction of a Humanized International Law which contains a selection of the Individual Opinions of Judge Antônio A. Cançado Trindade 1991 2013 former Judge and President of the Inter American Court of Human Rights and since 2008 a Judge of the International Court of Justice Volume 3 brings these texts up to date till 2015 Many dwell on aspects of the increased humanization of international law Elevating this body of norms which have traditionally focused on purely inter State relations to a level

where individuals and their suffering projected in time become a primary concern is without doubt Antonio Cançado Trindade's major doctrinal contribution. His great achievement at the International Court of Justice has been to draw attention to this dimension and to further its development in the international case law in the light of the universal juridical conscience and stressing the relevance of general principles of international law. In a significant number of cases the World Court acts today as a human rights court dealing increasingly albeit under the traditional umbrella of inter-State disputes with situations that involve human suffering and lead it to find human rights violations.
