Education and Innovative Perspectives in Higher Education Ana Luísa Rodrigues, 2024-04-30 Globalization digitalization and a rapid technological development of many areas of life and society bring humanity to another level of development Changes in the educational organizations are inevitable and the university must meet new requirements in a new paradigm Gafurov Safiullin Akhmetshin Gapsalamov from the excellence of academic productivism to the valorisation of pedagogy and teaching and training work from entrepreneurialism to a sense of community from entrepreneurship to public responsibility N voa 2019 **National Healing** Claude Hurlbert, 2013-02-01 In National Healing author Claude Hurlbert persuasively relates nationalism to institutional racism and contends that these are both symptoms of a national ill health afflicting American higher education and found even in the field of writing studies Teachers and scholars even in progressive fields like composition are unwittingly at odds with their own most liberatory purposes he says and he advocates consciously broadening our understanding of rhetoric and writing instruction to include rhetorical traditions of non Western cultures Threading a personal narrative of his own experiences as a student professor and citizen through a wide ranging discussion of theory pedagogy and philosophy in the writing classroom Hurlbert weaves a vision that moves beyond simple polemic and simplistic multiculturalism National Healing offers a compelling new aesthetic epistemological and rhetorical configuration

Martínez-Alemán, 2012-03-12 Accountability Pragmatic Aims and the American University frames the debates on teaching and learning accountability in Higher Education By examining significant historic periods in Higher Education Mart nez Alem n explores the present apprehension about accountability in today s colleges and universities Throughout the book s chapters Mart nez Alem n uses the pragmatic philosophy of John Dewey to enlighten current understandings of professional freedoms and she also discusses democratic imperatives in light of accountability obligations the teaching of undergraduates data and empirical research on college teaching and learning and the institutional policies for graduate student and faculty teaching development This book reveals the tensions between the democratic character of the university qualities that may seem irreconcilable with accountability metrics and the corporate or managerial economies of modern American universities Higher Education faculty administrators public policy makers and students enrolled in Higher Education Masters and PhD programs will find that this book informs their practice and will serve to contribute to the debates on accountability for years to come **Reason in a Dark Time**

Dale Jamieson, 2014-02-28 From the 1992 Rio Earth Summit to the 2009 Copenhagen Climate Conference there was a concerted international effort to stop climate change Yet greenhouse gas emissions increased atmospheric concentrations grew and global warming became an observable fact of life In this book philosopher Dale Jamieson explains what climate change is why we have failed to stop it and why it still matters what we do Centered in philosophy the volume also treats the scientific historical economic and political dimensions of climate change Our failure to prevent or even to respond

significantly to climate change Jamieson argues reflects the impoverishment of our systems of practical reason the paralysis of our politics and the limits of our cognitive and affective capacities The climate change that is underway is remaking the world in such a way that familiar comforts places and ways of life will disappear in years or decades rather than centuries Climate change also threatens our sense of meaning since it is difficult to believe that our individual actions matter The challenges that climate change presents go beyond the resources of common sense morality it can be hard to view such everyday acts as driving and flying as presenting moral problems Yet there is much that we can do to slow climate change to adapt to it and restore a sense of agency while living meaningful lives in a changing world *Academic Capitalism: Politics, Policies, and the Entrepreneurial University* Sheila Slaughter,1997 Bulletin of the Atomic Scientists ,1969-02 The Bulletin of the Atomic Scientists is the premier public resource on scientific and technological developments that impact global security Founded by Manhattan Project Scientists the Bulletin s iconic Doomsday Clock stimulates solutions for a safer world
